Message from the Company

To Unitholders

Market Summary

There is an evident recovery in Asia economic activities with a rebound in industrial output accompanied by a pick-up in services. The pace of recovery and subsequent growth trajectories though continues to be uneven. North Asia markets continue to be more resilient largely owing to strong policy support, better containment of virus outbreaks as well as higher exposure to the technology sector which has outperformed year-to-date.

Fund's Investment Strategy

Mainly invest in units of JPMorgan Funds – Asia Pacific Income Fund A (mth) - USD Class (Master Fund), which is set up and managed by JPMorgan Asset Management (Europe). The objective of Master Fund is to provide income and long term capital growth by investing primarily in income generating securities of countries in the Asia Pacific region (excluding Japan).

PERFORMANCE DISCLOSURES

Past performance is not a guide to current and future performance. The value of your investments and any income from them may fall as well as rise and you may not get back the full amount you invested.

Source: J.P. Morgan Asset Management. Share class performance is shown based on the NAV (net asset value) of the share class with income (gross) reinvested including actual ongoing charges excluding any entry and exit fees. The return of your investment may change as a result of currency fluctuations if your investment is made in a currency other than that used in the past performance calculation.

Indices do not include fees or operating expenses and you cannot invest in them.

The benchmark is for comparative purposes only unless specifically referenced in the Sub-Funds' Investment Objective and Policy.

Dividend income shown is gross of any applicable tax.

Prior to 14/06/12 the benchmark was 50% Morgan Stanley Capital International All Country Pacific Index (Total Return Net) / 50% J.P. Morgan Asia Credit Index (Total Return Gross).

See the material risks, general disclosures and definitions on pages 2 & 3.
