Message from the Company

To Unitholders

Comment on investment of the portfolio during the last accounting period June 1, 2020 to November 30, 2020

Market Summary

Global economy slows down as Covid-19 pandemic remains and economic activities are still below normal level. Nonetheless, central banks and governments altogether launched unprecedented stimulus packages to combat such impacts which could support global economy. Capital markets recovered after good results of vaccine development and US election. Policy rates are likely to maintain at a very low level. Easing monetary policy in major countries will reduce headwind for risk assets.

Fund's Investment Strategy

The fund would invest in the units of only one foreign fund (master fund) namely Merian Global Equity Absolute Return Fund (Class I USD Accumulation). The fund would invest in the master fund no less than 80% of its total net asset value. The master fund is managed by Merian Global Investor Series plc. regulated under Central Bank, Ireland. The objective of the master fund is capital appreciation while closely controlling risk. The fund aims to deliver absolute returns over rolling 12 month periods that have a low correlation with equity and bond markets, through a market neutral portfolio of global equity stocks.

Asset allocation as at November 30, 2020

Sector	%/NAV
Consumer Services	4.2
Information Technology	4.1
Utilities	2.3
Health Care	1.1
Consumer Discretionary	-0.2
Materials	-0.5
Financials	-0.7
Consumer Staples	-1.0
Real Estate	-1.8

Performance Review

For the period ended November 30, 2020 the net asset value of the fund increased by 0.39%.

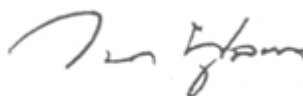

United Global Equity Absolute Return Fund	Return During June 1, 2020 – Nov 30, 2020	Return During Nov 28, 2019 – May 31, 2020
Fund	0.39%	-5.41%

Benchmark : The fund does not have a performance comparison index because the United Global Equity Absolute Return Fund focuses on investing in the Merian Global Equity Fund (Master Fund) which aims to generate results. Therefore, fund managers of the main fund believe that there are no indicators that are suitable for the investment strategy of the fund.

As we have managed United Global Equity Absolute Return Fund for a period of half year on November 30, 2020, we would like to inform the net value to unit holder, United Global Equity Absolute Return Fund has a net asset value 118,833,619.20 baht in asset value or its earning per unit is at 8.0928 baht.

In this connection, we would like to express our sincere thanks to the trust of all Unitholders has been extended to us for your investment. United Global Equity Absolute Return Fund Should you have any further question or need more information, You can monitor or follow the announcement the net asset value of the Fund in the company website.

Remark : 1. Return per period

2. Return per year

3. If since inception < 1 Year Return per period, If Since inception ≥ 1 Year Return per year

- Benchmark : The fund does not have a performance comparison index because the United Global Equity Absolute Return Fund focuses on investing in the Merian Global Equity Absolute Return Fund (Master Fund) which aims to generate results. Therefore, fund managers of the main fund believe that there are no indicators that are suitable for the investment strategy of the fund.
- Performance measures used in this annual report comply with AIMC performance presentation standards.
- Past Performance/performance comparison relating to a capital market product is not a guarantee of future results.

Merian Global Equity Absolute Return Fund (Class I USD Accumulation) (Master Fund)

FUND FACTSHEET MERIAN GLOBAL EQUITY ABSOLUTE RETURN FUND

I CLASS | USD | ACCUMULATION
AS AT 30 NOVEMBER 2020

EQUITIES FIXED INCOME **ALTERNATIVES** GLOBAL ALLOCATION

FUND MANAGEMENT TEAM

The fund is managed by Ian Heslop (head of team) and Amadeo Alentorn, supported by three senior analysts, Yuangao Liu, Matus Mrazik and James Murray, senior quantitative developer Sean Storey, quantitative developer Tarun Inani and strategist Justin Wells. The fund managers have been working together at Merian for over 15 years and their exclusive focus is managing equity strategies.

INVESTMENT OBJECTIVE AND APPROACH

The objective of the Fund is capital appreciation while closely controlling risk. The fund aims to deliver absolute returns over rolling 12 month periods that have a low correlation with equity and bond markets, through a market neutral portfolio of global equity investments with long positions typically taken in the stocks determined most likely to deliver a positive relative return, and short positions typically taken in the stocks determined most likely to deliver a negative relative return. In seeking to achieve its investment objective, the fund will aim to deliver a return, net of fees, in excess of the Federal Reserve Funds Target Rate over rolling 3 year periods. For performance measurement purposes, the cash benchmark will differ for non-base currency classes. The Fund also aims to achieve its objective within an annualised volatility limit of 6 per cent.

The team's approach is to rigorously assess companies against criteria including stock price valuation, balance-sheet quality, growth characteristics, efficient use of capital, analyst sentiment, and supportive market trends.

The team builds a diversified portfolio of stocks that is expected to outperform in the current macroeconomic environment, while applying stringent risk-management techniques, carefully controlling turnover and trading costs, and maintaining strict limits on sector and stock positions.

Past performance is not a guide to future performance. Source: Factset. © Morningstar. All Rights Reserved. I USD Accumulation terms. All information as at 30/11/2020 unless otherwise stated. The Merian Global Equity Absolute Return Fund is classified in the Absolute Return sector. However, as this sector comprises funds with very different investment strategies and objectives, the fund is not benchmarked against other funds in the sector, nor against a market index. With effect from 30 June 2020 Ian Heslop and Amadeo Alentorn are sole Co-Fund Managers of the fund.

RISK FACTORS

Investment risk - whilst the Fund aims to deliver above zero performance irrespective of market conditions, there can be no guarantee this aim will be achieved. Furthermore the Fund may exceed its volatility limit. A capital loss of some or all of the amount invested may occur.

Company shares (i.e. equities) risk - the value of Company shares (i.e. equities) and similar investments may go down as well as up in response to the performance of individual companies and can be affected by daily stock market movements and general market conditions. Other influential factors include political, economic news, company earnings and significant corporate events.

Derivative risk - the Fund uses derivatives to generate returns and/or to reduce costs and the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment. Derivatives also involve counterparty risk where the institutions acting as counterparty to derivatives may not meet their contractual obligations.

Currency risk - the Fund can be exposed to different currencies and may use techniques to try to reduce the effects of changes in the exchange rate between the currency of the underlying investments and the base currency of the Fund. These techniques may not eliminate all the currency risk. The value of your shares may rise and fall as a result of exchange rate movements.

Stock connect risk - the Fund may invest in China A-Shares through the China-Hong Kong Stock Connect ("Stock Connect"). Stock Connect is governed by regulations which are untested and subject to change. Trading limitations and restrictions on foreign ownership may constrain the Fund's ability to pursue its investment strategy. For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

OTHER INFORMATION

Past performance is not a guide to future performance and may not be repeated. Investment involves risk. The value of investments and the income from them may go down as well as up and investors may not get back the amount originally invested. Because of this, an investor is not certain to make a profit on an investment and may lose money. Exchange rate changes may cause the value of overseas investments to rise or fall.

- The Fund may be more than 35% invested in Government and public securities. These can be issued by other countries and Governments.

Your attention is drawn to the stated investment policy which is set out in the Fund's prospectus.
