Message from the Company

To Unitholders

Market Summary

Global economy shrunk as Covid-19 spread has gone global and forced governments to invoke aggressive measures in order to contain the outbreak. Many activities around the world suddenly stop and inevitably affect global economy. Nonetheless, central banks and governments altogether launched unprecedented stimulus packages to combat such impacts which could help the global economy as well as risky assets to quickly recover once the pandemic shows some signs of being successfully contained. Policy rates are likely to keep at low level. Easing monetary policy in major countries will reduce headwind for risk assets.
