Message from the Company

To Unitholders

Market Summary

Global economy slows down as Covid-19 pandemic remains and economic activities are still below normal level. Nonetheless, central banks and governments altogether launched unprecedented stimulus packages to combat such impacts which could support global economy. Capital markets recovered after good results of vaccine development and US election. Policy rates are likely to maintain at a very low level. Easing monetary policy in major countries will reduce headwind for risk assets. In our view, the valuation of the high yield bond is quite attractive compared to its investment grade counterpart.

Fund's Investment Strategy

The fund mainly invests in units of AXA World Funds US High Yield Bonds USD Funds managed by AXA Fund Management SA (Luxembourg) at the average of not less than 80% of the net asset value of the fund. The investment objective of the Master Fund is to generate attractive total returns by investing in the full maturity and quality spectrum of sub-investment grade debt of US companies with improving fundamentals.
