Message from the Company

To Unitholders

Market Summary

Global economy slows down as Covid-19 pandemic remains and economic activities are still below normal level. Nonetheless, central banks and governments altogether launched unprecedented stimulus packages to combat such impacts which could support global economy. Capital markets recovered after good results of vaccine development and US election. Policy rates are likely to maintain at a very low level. Easing monetary policy in major countries will reduce headwind for risk assets. Enormous liquidity pumped into the global system, coupled with the anchored Asian demand and manageable supply will be a favorable technical contributor towards the returns for Asia Credit asset. We will continue to scrutinize issuers' profile for adequacy, their abilities to cope with the impacts during this challenging viral period and to evaluate the new potential business strategies they devised as we move ahead into the "new normal" world.

Fund's Investment Strategy

The investment policy is to invest in equity securities, debt securities, hybrid securities, deposits and/or financial instruments with government, quasi-government, international organization, state-owned enterprise or corporate as domestic and/or foreign issuers, certifiers and guarantors. The credit ratings of issue or issuer are investment grade and the fund might invest in high yield bonds and/or non-investment grade bonds and/or unrated bonds. The fund shall make foreign investments by not less than 80% of total net asset value during a fiscal year. The company may appoint UOB Asset Management (Singapore) Limited as an outsourced manager for foreign investment and UOB Asset Management (Singapore) Limited may appoint Wellington Management Company to manage part of or the whole outsourcing portion.

Asset allocation as of November 30, 2020
