Message from the Company

To Unitholders

Market Summary

Global economy slows down as Covid-19 pandemic remains and economic activities are still below normal level. Nonetheless, central banks and governments still maintained stimulus packages to combat such impacts which could support global economy. Capital markets recovered after good results of vaccine development. Expectation of economic recovery led to a rise in bond yields although policy rates are likely to maintain at low level. Easing monetary policy in major countries will reduce headwind for risk assets.

Fund's Investment Strategy

The fund would invest in the units of the Jupiter Global Fund – Jupiter Dynamic Bond (Class I) with an annual average of not less than 80% of its total net asset value. The master fund is registered in Luxembourg and managed by Jupiter Asset Management International S.A. The objective of the master fund is to achieve a high income with the prospect of capital growth from a portfolio of investments in global fixed interest securities. With an unconstrained strategy, the Fund can invest across the entire fixed income universe, such as high yield, investment grade, government and convertible bonds to find value and potentially the best risk-adjusted return.

Note: The fund can invest a significant portion of the portfolio in high yield and non-rated bonds. These bonds may offer a higher income but carry a greater risk of default, particularly in volatile markets. Quarterly income payments will fluctuate. In difficult market conditions, it may be harder for the manager to sell assets at the quoted price, which could have a negative impact on performance. In extreme market conditions, the Fund's ability to meet redemption requests on demand may be affected. Some share classes charge all of their expenses to capital, which can reduce the potential for capital growth. Please see the Prospectus for information. This fund can invest more than 35% of its value in securities issued or guaranteed by an EEA state.
