Message from the Company

To Unitholders

Market Summary

Central banks of major economies will continue to raise interest rates in the first half of 2023 to control slowly falling inflation towards target. As a result, that led to the world economy slowdown, especially the manufacturing sector while the service sector continues to grow. Even inflation has clearly begun to turn a downward trend due to a more balanced supply and demand in both the energy and labor markets. As a result, central banks of major economies can stop raising interest rates from the middle of the year onwards.

The global stock market performed well after the banking crisis situation in the United States and Europe began to subside. This was led by the Japanese stock market due to good company fundamentals and support from the depreciating currency, and the US stock market where the technology sector continued to rise on the back of the business sector's adaptation and application of artificial intelligence technology and expectations that the central bank would be able to pursue a less stringent monetary policy. However, the Chinese stock market fell due to sluggish in property sector and domestic consumption that outweighed reopening hopes.

Fund's Investment Strategy

The investment policy is to invest in equity securities, debt securities, hybrid securities, deposits and/or financial instruments with government, quasi-government, international organization, state-owned enterprise or corporate as domestic and/or foreign issuers, certifiers and guarantors. The credit ratings of issue or issuer are investment grade and the fund might invest in high yield bonds and/or non-investment grade bonds and/or unrated bonds. The fund shall make foreign investments by not less than 80% of total net asset value during a fiscal year. The company may appoint UOB Asset Management (Singapore) Limited as an outsourced manager for foreign investment and UOB Asset Management (Singapore) Limited may appoint Wellington Management Company to manage part of or the whole outsourcing portion.
