คำอธิบาย

Maximum Drawdown : เปอร์เซ็นต์ผลขาดทุนสูงสุดของกองทุนรวมในระยะเวลา 5 ปี ย้อนหลัง (หรือตั้งแต่จัดตั้งกองทุนกรณีที่ยังไม่ครบ 5 ปี) โดยวัดจากระดับ NAV ต่อหน่วยที่จุดสูงสุด ไปจนถึงจุดต่ำสุดในช่วงที่ NAV ต่อหน่วยปรับตัวลดลง ค่า Maximum Drawdown เป็นข้อมูลที่ช่วยให้ทราบถึงความเสี่ยงที่อาจจะขาดทุนจากการลงทุนในกองทุนรวม

Recovering Period : ระยะเวลาการฟื้นตัว เพื่อเป็นข้อมูลให้ผู้ลงทุนทราบถึงระยะเวลาดังแต่การขาดทุนสูงสุดจนถึงระยะเวลาที่เงินลงทุนเริ่มต้นใช้ระยะเวลานานเท่าใด

อัตราส่วนหมุนเวียนการลงทุน : ความถี่ของการซื้อขายหลักทรัพย์ในพอร์ตกองทุนในช่วงเวลาใดช่วงเวลานึง โดยคำนวณจากมูลค่าที่ต่ำกว่าระหว่างผลรวมของมูลค่าการซื้อขายหลักทรัพย์กับผลรวมของมูลค่าการขายหลักทรัพย์ของกองทุนรวมในรอบระยะเวลา 1 ปีหารด้วยมูลค่า NAV ของกองทุนรวมเฉลี่ยในรอบระยะเวลาเดียวกัน กองทุนรวมที่มีค่า portfolio turnover สูง บ่งชี้ถึงการซื้อขายหลักทรัพย์บ่อยครั้งของผู้จัดการกองทุนและทำให้มีต้นทุนการซื้อขายหลักทรัพย์ที่สูง จึงต้องพิจารณาเปรียบเทียบกับผลการดำเนินงานของกองทุนรวมเพื่อประเมินความคุ้มค่าของการซื้อขายหลักทรัพย์ดังกล่าว

Sharpe Ratio : อัตราส่วนระหว่างผลตอบแทนส่วนเพิ่มของกองทุนรวมเปรียบเทียบกับความเสี่ยงจากการลงทุน โดยคำนวณจากผลต่างระหว่างอัตราผลตอบแทนของกองทุนรวมกับอัตราผลตอบแทนที่ปราศจากความเสี่ยง (risk-free rate) เปรียบเทียบกับค่าเบี่ยงเบนมาตรฐาน (standard deviation) ของกองทุนรวม ค่า Sharpe Ratio สะท้อนถึงอัตราผลตอบแทนที่กองทุนรวมควรได้รับเพิ่มขึ้นเพื่อชดเชยกับความเสี่ยงที่กองทุนรวมรับมา โดยกองทุนรวมที่มีค่า Sharpe Ratio สูงกว่าจะเป็นกองทุนที่มีประสิทธิภาพในการบริหารจัดการลงทุนที่ดีกว่า เนื่องจากได้รับผลตอบแทนส่วนเพิ่มที่สูงกว่าภายใต้ระดับความเสี่ยงเดียวกัน

Alpha : ผลตอบแทนส่วนเกินของกองทุนรวมเมื่อเปรียบเทียบกับดัชนีชี้วัด (benchmark) โดยค่า Alpha ที่สูง หมายถึง กองทุนสามารถสร้างผลตอบแทนได้สูงกว่าดัชนีชี้วัด ซึ่งเป็นผลจากประสิทธิภาพของผู้จัดการกองทุนในการคัดเลือกหรือหาจังหวะเข้าลงทุนในหลักทรัพย์ได้อย่างเหมาะสม

Beta : ระดับและทิศทางการเปลี่ยนแปลงของอัตราผลตอบแทนของหลักทรัพย์ในพอร์ตการลงทุน โดยเปรียบเทียบกับอัตราการเปลี่ยนแปลงของตลาด Beta น้อยกว่า 1 แสดงว่าหลักทรัพย์ในพอร์ตการลงทุนมีการเปลี่ยนแปลงของอัตราผลตอบแทนน้อยกว่าการเปลี่ยนแปลงของอัตราผลตอบแทนของกลุ่มหลักทรัพย์ของตลาด Beta มากกว่า 1 แสดงว่า หลักทรัพย์ในพอร์ตการลงทุนมีการเปลี่ยนแปลงของอัตราผลตอบแทนมากกว่าการเปลี่ยนแปลงของอัตราผลตอบแทนของกลุ่มหลักทรัพย์ของตลาด

Tracking Error : เพื่อให้พิจารณาความผันผวนของส่วนต่างของผลตอบแทนเฉลี่ยของกองทุนรวมและผลตอบแทนของดัชนีชี้วัด ซึ่งสะท้อนให้เห็นถึงประสิทธิภาพในการเลียนแบบดัชนีชี้วัดของกองทุนรวมว่ามีภาระเบี่ยงเบนออกไปจากดัชนีชี้วัด มากน้อยเพียงใด เช่น หากกองทุนรวมมีค่า TE ต่ำ แสดงว่า อัตราผลตอบแทนของกองทุนมีการเบี่ยงเบนออกไปจากดัชนีชี้วัดในอัตราที่ต่ำ ดังนั้น กองทุนรวมนี้จึงมีประสิทธิภาพในการเลียนแบบดัชนีชี้วัด ในขณะที่ยังคงมีค่า TE สูง แสดงว่าอัตราผลตอบแทนของกองทุนรวมมีการเบี่ยงเบนออกจากดัชนีชี้วัดในอัตราที่สูง ดังนั้น โอกาสที่ผลตอบแทนการลงทุนจะเป็นไปตามผลตอบแทนของ benchmark ก็จะลดน้อยลง เป็นต้น

Yield to Maturity : อัตราผลตอบแทนจากการลงทุนในตราสารหนี้โดยถือจนครบกำหนดอายุ ซึ่งคำนวณจากดอกเบี้ยที่จะได้รับในอนาคตตลอดอายุตราสารและเงินต้นที่จะได้รับคืนนำมาคิดลดเป็นมูลค่าปัจจุบัน โดยใช้ตัวอัตราผลตอบแทนของกองทุนรวมตราสารหนี้ คำนวณจากค่าเฉลี่ยถ่วงน้ำหนักของ Yield to Maturity ของตราสารหนี้แต่ละตัวที่กองทุนมีการลงทุน และเนื่องจาก Yield to Maturity มีหน่วยมาตรฐานเป็นเปอร์เซ็นต์ต่อปี จึงสามารถนำไปใช้เปรียบเทียบกับอัตราผลตอบแทนระหว่างกองทุนรวมตราสารหนี้ที่มีนโยบายถือครองตราสารหนี้จนครบกำหนดอายุและมีลักษณะการลงทุนที่ใกล้เคียงกันได้

United Asia Pacific Real Estate Income Fund

Investment Objective

The investment objective of the Fund is to seek total return consisting of income and capital appreciation over the medium to long term by investing primarily in Real Estate Investment Trusts (“REITs”) listed in the Asia Pacific region (including Japan, Australia and New Zealand).

Fund Performance Since Inception in US Dollar

Fund performance is calculated on a NAV to NAV basis.
 Benchmark: Since Inception – 30 Jun 2022: S&P Asia Pacific REITs Index; 1 Jul 2022 – Present: FTSE EPRA Nareit Asia Pacific Index

United Asia Pacific Real Estate Income Fund

Important Notice & Disclaimers

Investors should consider carefully whether to subscribe for units in the base currency of the Fund or for units in various classes which are denominated in their respective currencies. The difference in the performances of the Fund in various currencies, if applicable, is a reflection of fluctuating exchange rates during the relevant period.

A prospectus for the fund(s) (the "Fund(s)") may be obtained from the Manager or any of its appointed distributors. Investors should read the prospectus before deciding whether to subscribe for or purchase units in the Fund(s) ("Units"). All applications for Units must be made on application forms accompanying the prospectus or otherwise as described in the prospectus. **Past performance of the Fund(s) or the Manager and any prediction, projection or forecast on the economy or markets are not necessarily indicative of the future or likely performance of the Fund(s) or the Manager.** Any extraordinary performance may be due to exceptional circumstances which may not be sustainable. The value of Units and any income from the Fund(s) may fall as well as rise. The above information is strictly for general information only and must not be construed as an offer or solicitation to deal in Units, nor a recommendation to invest in any company mentioned herein. Investments in unit trusts are not obligations of, deposits in, or guaranteed or insured by UOB, UOBAM, or any affiliates or distributors. The Fund may use or invest in financial derivative instruments and you should be aware of the risks associated with investments in financial derivative instruments which are described in the Fund's prospectus. An investment in unit trusts is subject to investment risks and foreign exchange risks, including the possible loss of the principal amount invested. Investors may wish to seek advice from a financial adviser before making a commitment to invest in Units. In the event an investor chooses not to seek advice from a financial adviser, the investor should consider carefully whether the Fund(s) is/are suitable for him.

This advertisement has not been reviewed by the Monetary Authority of Singapore.

UOB Asset Management Ltd Company Reg No. 198600120Z

Global REFS

Monthly Report – February 2024, UBS (Lux) Real Estate Funds Selection – Global

A distinctive offering combining specialist fund-of-funds expertise, with exposure to major global real estate markets on a highly diversified basis.

Key facts

Fund name	UBS (Lux) Real Estate Funds Selection - Global (Global REFS, GREFS or Fund)
Fund structure	Luxemburg SICAV
Fund manager	UBS Fund Management (Luxembourg) S.A.
Inception	June 30, 2008 (I-12-dist EUR)
Liquidity	Open-end with monthly liquidity
Base currency	EUR denominated (passively hedged against other currencies)
Current Leverage ¹	29.5% on a look-through basis on invested capital and NAV (maximum leverage is 40.0%) ¹
Subscription	Notification of subscription three business days before the last business day of each month
Redemption	Notification 30 calendar days before the last business day of each month
Fund targets ²	5-7% p.a. over the investment cycle, net of fees and taxes

¹Approximate look-through data on invested capital and NAV from the last available underlying fund reports. Look-through leverage based on invested capital

²The fund has an absolute return target as there are no meaningful global benchmarks for direct real estate assets. Note that returns on absolute type investments can still be negative compared to the initial investment values. A customized benchmark consisting of local benchmarks would not be feasible as those are only available for a limited amount of matured regions and can differ as well significantly from the broader underlying local market. There is no assurance that the target returns will ultimately be realized. Possibility of loss does exist.

Portfolio commentary February 2024

In February, US annual inflation unexpectedly rose to 3.2% (up from 3.1%), and NY Fed researchers say that manufacturing growth in China, poses inflationary risk for the US. In the Euro Area and the UK, inflation dropped to 2.6% and 3.4%, respectively, but still exceeded the ECB's and BoE's target of 2%. In Japan, the annual inflation rate accelerated to 2.8%, reaching its peak since November 2023, and the BoJ increased its key interest rate to a range of 0%-0.1%, meaning that there are no countries with negative interest rates anymore. As of February 29, 2024, the Fund is committed to and invested in 63 underlying real estate investments and is circa 97.2% invested and 98.9% committed. On the February NAV there were EUR 18.4 million of subscriptions and EUR 91.8 million of redemptions, bringing the aggregate redemption pool to EUR 494.1 million. Effective for the 29 February 2024 Redemption Dealing Day, GREFS' Board of Directors extended the partial deferral of redemptions, limiting these to approximately EUR 70.0 million, reducing the queue to EUR 424.1 million. This deferral is likely to continue in the coming months.

Portfolio weightings (based on committed capital)³

Source: UBS Asset Management, Real Estate & Private Markets (REPM), 29.02.2024

³Assumes all commitments and redemptions associated with the 29.02.2024 NAV are fully drawn and redeemed, respectively. Approximate figures from last available underlying fund reports. Pie charts may not add up to 100% due to rounding differences.

*Represents the cash & other net assets associated with the 29.02.2024 NAV that has not been committed to underlying funds as of 29.02.2024. Unallocated cash has been affected by the valuation of unrealized FX forward contracts. Actual cash & other net assets was 2.9% as of 29.02.2024.

Overall portfolio statistics

Total Net Asset Value (NAV) (EUR)	6,401,030,072
Value of underlying real estate assets (EUR billion) ⁴	361.54
Number of properties ⁴	11,967
Number of tenants ⁴	70,099
Leverage (% gross asset values) ^{4,5}	29.5

Source: UBS Asset Management, Real Estate & Private Markets (REPM), 29.02.2024

⁴ Approximate figures from latest available underlying fund reports. The extent of tenant diversification is expected to be greater than the figure presented. Some of the underlying funds do not provide total tenant figures due to their confidentiality and disclosure guidelines.

⁵ Look-through leverage based on invested capital.

General performance review (based on share class I-12-dist EUR)

The share class saw a month-on-month, net gain of circa 0.24%. For the I-12-dist EUR share class for February 2024, the hedging costs increased the monthly return by 0.03%. The Fund launched in June 2008 and has a since inception annualized return of 4.50%.

Singapore

Please note that UBS (Lux) Real Estate Funds Selection - Global has been entered into the List of Restricted Schemes by Monetary Authority of Singapore (as defined in regulation 2 of the Securities and Futures (Offers of Investments) (Collective Investment Schemes) Regulations 2005) under paragraph 3 or 4 of the Sixth Schedule of the Regulations. This document is not to be distributed to the retail public of Singapore. This document has not been registered with the Monetary Authority of Singapore pursuant to the exemptions under Sections 304 and 305 of the SFA. Accordingly, this document may not be circulated or distributed, nor may the Securities be offered or sold, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor pursuant to Section 304 of the SFA, (ii) to an accredited investor or other relevant person, or any person pursuant to Section 305(2) of the SFA, and in accordance with the conditions specified in Section 305 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Philippines

An exemption is being claimed in the Philippines from the requirement under Sections 8 and 12 of Republic Act No.8799 or The Securities Regulation Code ("SRC") to register the securities being offered or sold herein with the Securities and Exchange Commission pursuant to Section 10.1(l) of the SRC which includes as an exempt transaction the sale of such securities to any number of qualified buyers. Accordingly, any document or material issued in connection with the offer or sale of the securities, may not be circulated or distributed, nor may the securities be offered or sold, whether directly or indirectly, to persons in the Philippines other than qualified buyers.
THE SECURITIES BEING OFFERED OR SOLD HEREIN HAVE NOT BEEN REGISTERED WITH THE SECURITIES AND EXCHANGE COMMISSION UNDER THE SECURITIES REGULATION CODE. ANY FUTURE OFFER OR SALE OF THE SECURITIES IS SUBJECT TO REGISTRATION REQUIREMENTS UNDER THE CODE UNLESS SUCH OFFER OR SALE QUALIFIES AS AN EXEMPT TRANSACTION.

Thailand

NOTICE TO RESIDENTS OF THAILAND – the securities will not be offered or sold, directly or indirectly, in Thailand. UBS Asset Management is not licensed to publically offer securities in Thailand. Thai investors must be authorised to engage in the purchase of Securities of the type being offered or sold. Thai investors are responsible for obtaining all relevant government regulatory approvals/ licenses, consents, verification and/or registrations from relevant Thai governmental and regulatory authorities required to invest in the securities and required for the purposes of remitting any amounts in foreign currencies for the investment.

Malaysia

This document is sent to you, at your request, merely for information purposes only. No invitation or offer to subscribe or purchase securities is made by UBS Asset Management as the prior approval of the Securities Commission of Malaysia or other regulatory authorities of Malaysia have not been obtained. No prospectus has or will be filed or registered with the Securities Commission of Malaysia.

Investment Policy

This sector-based equity fund invests along the value chain of the global infrastructure opportunity set. The investment universe encompasses companies that provide the facilities and services necessary to maintain and develop modern infrastructure, and also includes companies supplying infrastructure-related products and services. The objective is to maximize total return from capital appreciation and dividends over extended periods of time. It follows an unconstrained, non-benchmark oriented approach to identify attractively valued companies positioned to benefit from the infrastructure theme.

Investing involves risk including the risk of loss of capital. Past performance does not predict future returns. Neither simulated nor historical performance is a reliable indicator for current or future performance.

Performance overview - monthly & cumulative

since 01.01.2024

Performance overview - cumulative

since 01.03.2014

Until **14.12.2017**, the Fund had different characteristics and performance was achieved under circumstances that no longer apply. Repositioning as per 14.12.2017 (Old Fund name: CSIF 2 – CS (Lux) Infrastructure Equity Fund).

Performance overview - monthly & YTD

since 01.01.2024, in %

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	YTD
Portfolio net	-1.76	0.67											-1.11
Benchmark	1.20	4.24											5.49
Relative net	-2.96	-3.57											-6.60

¹ If the currency of a financial product and/or its costs is different from your reference currency, the return and cost may increase or decrease as a result of currency fluctuations.

The individuals mentioned above only conduct regulated activities in the jurisdiction(s) where they are properly licensed, where relevant.

ESG stands for environmental (E), social (S), and governance (G).

Please find the definition of all the acronyms/terms used in this document in the Glossary. Additional important information can be found at the end of the document.

Potential Risks

The Fund's risk and reward profile does not reflect the risk inherent in future circumstances that differ from what the Fund has experienced in the recent past. This includes the following events which are rare but can have a large impact.

- **Liquidity risk:** Assets cannot necessarily be sold at limited cost in an adequately short timeframe. The Fund's investments may be prone to limited liquidity. The Fund will endeavor to mitigate this risk by various measures.
- **Counterparty risk:** Bankruptcy or insolvency of the Fund's derivative counterparties may lead to payment or delivery default.
- **Operational risk:** Deficient processes, technical failures or catastrophic events may cause losses.
- **Political and Legal risks:** Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks.
- **Sustainability risks:** Sustainability risks are environmental, social or governance events or conditions that can have a material negative effect on the return, depending on the relevant sector, industry and company exposure.

The product's investment objectives, risks, charges and expenses, as well as more complete information about the product, are provided in the prospectus (or relevant offering document), which should be read carefully before investing.

Investors may lose part or all of their invested amount.

The full offering documentation including complete information on risks may be obtained free of charge from a Credit Suisse client advisor, representative, or, where applicable, via Fundsearch (credit-suisse.com/fundsearch).

The investment promoted in this marketing material concerns the acquisition of units or shares in a fund and not of any underlying assets. The underlying assets are owned by the fund only.

Risk profile²

PRIIP SRI

Larger values (up to 7) indicate higher risk while lower values (up to 1) indicate lower risk.

² The risk indicator assumes you keep the Product for 7 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less. The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. Be aware of currency risk if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance commentary

The fund underperformed the broader equity market as measured by the MSCI World (NR) Index (source: Aladdin, gross of fees in USD). Among the largest contributors to the fund's monthly performance were midstream companies Oneok and Targa Resources. Both companies reported strong momentum in their core business. Data center REIT Equinix delivered strong Q4 2023 numbers and indicated that pricing strength continues, primarily driven by low vacancies and ongoing strong demand. In contrast, Westshore Terminal (port), E.On (electric utility), as well as Veolia Environmental (utility) detracted most from the fund's performance.

Market comments

During the last month, equity markets continued to trend higher as investors rewarded recent earnings reports with strong fundamentals, particularly from the tech-related sectors. However, the US consumer price index report, which came in above economists' forecasts, was a stark reminder of the challenges that the US Federal Reserve (Fed) faces in bringing down inflation to its 2% target. Infrastructure stocks underperformed the broader equity market (source: Bloomberg, NMX Infrastructure Composite Index, MSCI World [NR] Index) during this period. Among the different subthemes, waste utilities, data centers, railroads, and oil & gas transportation and storage performed best. Conversely, renewables and tower REITs suffered from an interim rise in US bond yields, while port companies were hit by higher shipping costs due to the Red Sea crisis. Furthermore, lower gas and power prices again put a burden on electric and gas utilities.

Comments on transactions

In February 2024, we decreased the weighting of the Utilities sector mainly in favor of transport infrastructure stocks. Triggered by falling power and gas prices, we further reduced our holdings in electric and multi-utilities in Europe, but also gas utilities. While we trimmed our position in Mexican airports, we increased our holdings in US and Canadian railroads, driven by a rise in the intermodal volumes. Within the Telecommunication bracket, we increased our exposure in data center REITs on the back of tower REITs. Driven by lower capital expenditures from telecom carriers, the tower owners reduced their guidance for organic growth.

ESG Approach

This fund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector). It applies the CSAM Sustainable Investing Policy (www.credit-suisse.com/esg), including norms-based, values-based and business conduct exclusions, to combine ESG factors with traditional financial analysis to make an ESG adjusted risk-return assessment, which serves as the basis for the portfolio construction. For further information about the ESG investment criteria and the sustainability-related aspects of the fund please consider the legal and regulatory documents of the fund (such as, e.g., the prospectus) and visit www.credit-suisse.com/esg. In addition to sustainability-related aspects, the decision to invest in the fund should take into account all objectives and characteristics of the fund as described in its prospectus, or in the information which is to be disclosed to investors in accordance with applicable regulations.

Certain data points are provided for mere transparency purposes and are not linked to a specific ESG investment process, nor to CSAM ESG methodology. For details about the fund's ESG decision-making process, please refer to the fund's prospectus.

ESG Characteristics

ESG Overview

According to MSCI methodology. Fund performance against benchmark: MSCI World (NR).

	Portfolio	Benchmark
ESG Rating	AA	A
ESG Quality score	7.42	6.87
Environmental score	6.79	6.16
Social score	5.88	5.01
Governance score	6.09	5.76
Coverage for Rating/Scoring	99.47%	99.91%
Weighted Average Carbon Intensity (Tons of CO ₂ e/\$M sales)	370.70	95.60
Coverage for Carbon Intensity	99.47%	99.82%

Note: The total carbon intensity figure shown in this section may be higher than the total in the breakdown graph. This is because the figure is normalized, and actual weights are inflated because of limited data coverage. For further information on the MSCI methodology for the above listed ESG data points, please refer to the glossary.

⁴ If the currency of a financial product and/or its costs is different from your reference currency, the return and cost may increase or decrease as a result of currency fluctuations.

⁵ Active Ownership is part of the fund's strategy to act in the best interests of its investors and to preserve and optimize the long-term value of their investments. To promote best practices and to ensure that the investee companies are sustainable and successful in the long term, Active Ownership is designed to influence the investee companies on two levels: first, through proxy voting, and second, through engagement. In the case of investments in other funds (Target Funds), the fund has no or only limited ability to exercise Active Ownership on the Target Fund, resp. on the Target Funds' investee companies.

Top 10 positions - ESG Characteristics

In % of the fund's total economic exposure. Certain data points disclosed in this table are provided for mere transparency purposes and are not linked to a specific ESG investment process, nor to CSAM ESG methodology. For details about the fund's ESG decision-making process, please refer to the fund's prospectus. Source: MSCI

Instrument Name ⁶	Weight in portfolio	GICS sector	MSCI ESG Rating	Controversy flag	Carbon intensity (tCO2e / \$M sales)
VINCI SA	4.77%	Industrials	A	Yellow	33.30
EQUINIX REIT INC	4.68%	Real Estate	AA	Green	336.70
ONEOK INC	4.63%	Energy	AAA	Yellow	294.80

NATIONAL GRID PLC	3.60%	Utilities	AAA	Green	270.60
E.ON N	3.52%	Utilities	AA	Yellow	50.70

Note: All ESG data points in the table refer to an underlying issuer as applicable (e.g., an equity issuer in case of a convertible bond). For further information on the methodology for the above listed ESG data points, please refer to the glossary.

Asset breakdown by ESG rating

In % of total economic exposure. Fund performance against benchmark: MSCI World (NR). Source: MSCI ESG rating

	Portfolio	Benchmark	Portfolio Benchmark
AAA	14.49	14.08	
AA	41.58	32.13	
A	38.30	27.62	
BBB	2.80	19.47	
BB	-	4.21	
B	2.31	2.38	
CCC	-	0.03	
Not ratable	0.25	0.01	
No data coverage	0.28	0.08	

Note: For further information on MSCI's ESG rating methodology and the difference between categories "not ratable" and "no data coverage", please refer to the glossary.

Asset breakdown by ESG controversy flag

In % of fund total economic exposure to investee companies. Fund performance against benchmark: MSCI World (NR). Source: MSCI

	Portfolio	Benchmark	Portfolio Benchmark
Green	55.19	33.15	
Yellow	34.68	34.79	
Orange	9.60	31.56	
Red	-	0.42	
No data coverage	0.28	0.07	

Note: Exposure to investee companies represents 99.75% of portfolio weight for this share class. MSCI only provides data on ESG controversies for corporate issuers. Any remaining instruments (e.g., government bonds) are excluded from this breakdown. For further information on MSCI's ESG controversy flag methodology, please refer to the glossary.

Carbon emission intensity contribution by GICS sector

Tons of CO2 equivalent emission intensity (GHG scopes 1 & 2) per \$m sales, by GICS sector split. Fund performance against benchmark: MSCI World (NR). Source: MSCI

	Portfolio	Benchmark	Portfolio Benchmark
Industrials	125.07	9.50	
Energy	121.71	14.41	
Utilities	70.95	32.66	
Real Estate	47.05	1.98	
Others	3.96	36.88	
Total	368.75	95.43	

Note: Security weighted data coverage is 99.47% for the portfolio. The total shown in this section may be lower than the one in the 'ESG Overview' section. This is because the figures in this breakdown are not normalized and use the actual weights. For further information on the Carbon emission intensity, please refer to the glossary.

⁶ The individual entities and/or instruments mentioned on this page are meant for illustration purposes only and are not intended as a solicitation or an offer to buy or sell any interest or any investment.

Glossary

Accumulating	Indicates a regular reinvestment of the dividends received in the portfolio itself
Annualized Risk	Annualized risk is a statistic, which is used to measure the risk of a fund by describing the range of returns, which were achieved in the observation period are most likely to be achieved. Greater volatility implies greater risk.
Beta	A measure of the volatility, or systematic risk, of a single security or fund in comparison to the market as a whole.
Carbon emission intensity	The weighted average emissions intensity, which is provided by MSCI ESG, divides the Scopes 1 & 2 emissions in tons of CO ₂ -equivalent by million \$ sales. Intensities are broken down by GICS sector and are security weighted.
ESG aware	This product undertakes investments that explicitly assess and integrate the sustainability characteristics of companies in the investment process.
ESG benchmark	A ticked 'ESG benchmark' box reflects that the ESG section in this document compares the ESG performance of the portfolio with an ESG index. In case the box is not ticked, this means that the ESG section in this document compares the ESG performance of the portfolio with a non-ESG index or that no comparison is performed due to a lack of a recognized benchmark. The investor shall read the legal documentation of the Fund to understand how the benchmark is used. In any case, a ticked 'ESG benchmark' box does not mean that the ESG benchmark is used to attain the ESG strategy of the fund.
ESG Controversy Flag	ESG Controversy Flag is designed to provide timely and consistent assessments of ESG controversies involving publicly traded companies and fixed income issuers. A controversy case is typically a one-off event such as an environmental oil spill, an accident, or allegations such as safety issues in a production facility. Controversy flags can be red, orange, yellow or green. Red indicates that a company is involved in one or more very severe controversies. Orange indicates that a company has been involved in one or more recent severe structural controversies that are ongoing. Yellow indicates that the company is involved in severe-to-moderate level controversies. Green indicates that the company is not involved in any major controversies. For further information on the methodology, please refer to www.msci.com/our-solutions/esg-investing/ .
ESG Quality score	The ESG Quality score, based on MSCI ESG scores of underlyings, is measured on a scale from 0 (very poor) to 10 (very good). It does not correspond directly to the underlying Environment, Social and Governance Pillar scores. The Pillar scores are derived on an absolute basis, while the portfolio ESG Quality score is adjusted by MSCI to reflect the industry-specific level of ESG risk exposure. As Pillar scores are absolute, and the portfolio ESG Quality score is relative, the first cannot be averaged to derive the latter. The coverage rate is security weighted.
Issuer ESG Rating	Company and Government ESG Ratings, which are provided by MSCI ESG, are measured on a scale from AAA (highest rating) to CCC (lowest rating). Company ESG Ratings are based on the issuer's exposure to industry specific ESG risks and its ability to mitigate those risks relative to peers. Company ESG Ratings are calculated on an industry relative basis while the underlying individual E, S and G Ratings are absolute. Hence, the ESG Rating cannot be seen as an average of the individual E, S and G Ratings. Government ESG Ratings identify a country's exposure to and management of ESG risk factors and explain how these factors might impact the long-term sustainability of its economy. They are derived from 0-10 scores on underlying factors in the E, S and G pillars. For further information on the MSCI methodology, please refer to www.msci.com/our-solutions/esg-investing/ .
Ex post	Refers to metrics based on historical data
GICS	Global Industry Classification Standard
Greenhouse gas (GHG) emissions	Scope 1 emissions are generated by a company directly from owned or controlled sources such as the burning of fuels (stationary or mobile), industrial processes, etc. Scope 2 emissions are indirect emissions, primarily those associated with the electricity consumed by a company. Scope 3 emissions are all other indirect emissions associated with a company's operations, such as business travel, waste generated, and products both upstream (in the supply chain) and downstream (use of the products and end of life). Scope 3 emissions typically account for the largest proportion of a company's emissions.
Information ratio	This statistic measures how much a fund's out-performance may be attributed to manager skill as oppose to market movement. A high Information Ratio infers more manager skill than a low value would suggest.
Maximum drawdown	Represents the worst possible result (in percentage terms) that occurred during the period being analyzed.
MTD	Month-to-date
MSCI	MSCI refers to the external data provider MSCI ESG Research LLC and/or its affiliates.
MSCI ESG Methodology	For further information on the methodology applied to assess the ESG characteristics of the investments, please refer to www.msci.com/our-solutions/esg-investing/
NAV	Net Asset Value
Not ratable / No data coverage	Where MSCI considers an asset type for ESG analysis but data on an economic exposure is unavailable due to a lack of data from the data vendor, the investment falls under the category "No data coverage". Where MSCI considers an asset type out of scope for ESG analysis (e.g. Cash, Currency), the economic exposure falls under the category "Not ratable". For further information regarding excluded asset types, please refer to www.msci.com/our-solutions/esg-investing/ .
Ongoing Charges	The calculation of the ongoing charge is based on the Committee of European Securities Regulators/10-674 Directive. For a maximum of 12 months from fund fiscal year end and since inception, the ongoing charges figure is based on estimated expenses. After that, the ongoing charges correspond to the TER of the last annual report. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling shares/units in another collective investment undertaking.
Portfolio/Benchmark ESG Rating	Discrepancies may exist between the portfolio-level ESG Rating calculated by CSAM applying the MSCI methodology (provided in this factsheet) and the ESG Ratings displayed by other providers (e.g., MSCI ESG fund ratings). There are three main reasons for these potential deviations: (1) CSAM uses updated month-end holdings data as basis for its calculation, (2) CSAM consistently uses underlying issuer data where applicable (e.g., equity issuer in case of a convertible bond), and (3) look-through approach for target funds applied by CSAM. The coverage rate is security weighted. For further information on the MSCI methodology, please refer to www.msci.com/oursolutions/esg-investing/ .
QTD	Quarter-to-date
Sustainable Finance Disclosure Regulation (SFDR)	Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector
Sustainable investment objective	Where the 'sustainable investment objective' box is ticked, this means that the product implements CSAM investment strategies that allocate capital into companies that offer solutions to society's challenges and meet a sustainable investment objective. The sustainable investment objective is achieved through a dedicated investment process focusing on investments in themes and sectors whose economic activities address specific ESG challenges. An unticked box reflects that the product does not aim to meet a sustainable investment objective.
TNA	Total Net Assets
Tracking error	Measure of the deviation of the return of a fund compared to the return of a benchmark over a fixed period of time.
YTD	Year-to-date

Warning statements

Asset breakdown	Indicative allocation may change over time. All holdings are shown strictly for information purposes only and do not constitute investment recommendations of Credit Suisse. Please note that this does not constitute an offer or a solicitation to buy or sell any interest or any investment.
Swinging Single Pricing	For more details, please refer to the relevant chapter "Net Asset Value" of the fund's prospectus
Performance start date	Performance calculation and presentation start with the first full month of an invested strategy. This can lead to a difference in launch and performance start dates.
PRIIP SRI	The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets.

ESG Notes

The figures contained in this section are not audited. Where ESG related information, statements and scorings are made in this document, CS may have, partially or entirely, relied on publicly available information, internally developed data and/or information obtained from other third-party sources which CS believes to be reliable. CS' ability to verify such ESG objectives may be limited by the reliability of the data available in respect of the underlying assets and the status of the regulations in relation to tracking and providing such data. CS has not independently verified any information obtained from these public and third-party sources and cannot make any representations or warranties as to its accuracy, completeness or reliability. It is possible that the data from ESG data providers may be incorrect, unavailable, or not fully updated. This is especially true where CS has limited access to data from external parties regarding the underlying elements of an investment, for example due to a lack of look-through data. Such data gaps could result in an incorrect assessment of a sustainability practice and/or related sustainability risks and opportunities. Investors shall not use the ESG data provided in this document for the sake of meeting their own regulatory disclosure or reporting requirements. CS cannot make any guarantee about the content or completeness of such ESG disclosures, which remain subject to change and cannot be relied upon. In particular, CS shall not be liable for any errors or omissions in connection with any ESG data herein, or for any direct, indirect, special, punitive, consequential or any other damages (including lost profits). In the absence of a standardized, industry-wide ESG classification system, CS has developed its own ESG framework (the "CS Sustainable Investment Framework"). Therefore, investors should note that the ESG classification of the fund reflects CS' opinion and is based on the CS Sustainable Investment Framework which classification may vary from the classification made by third parties. The fact that a fund follows the CS Sustainable Investment Framework does not necessarily mean that it meets the investors overall investment objectives, nor their sustainability preferences. Given that sustainability regulations and guidelines are still developing, CS may need to review certain ESG classifications/descriptions as industry practices change and as more regulatory guidance becomes available. The ESG-performance of a portfolio might also differ from its financial performance and CS cannot make any representation as to the correlation between financial and ESG performance. Sustainability-related practices also differ by region, industry and ESG issue and are continually evolving. Consequently, sustainability-related practices may change over time. Similarly, new local sustainability requirements may result in additional compliance costs, disclosure obligations or other restrictions on the fund. CS' view on the appropriate classification may also evolve over time, including in response to regulatory guidance or changes in industry approach to classification.

Investment Policy

This sector-based equity fund invests along the value chain of the global infrastructure opportunity set. The investment universe encompasses companies that provide the facilities and services necessary to maintain and develop modern infrastructure, and also includes companies supplying infrastructure-related products and services. The objective is to maximize total return from capital appreciation and dividends over extended periods of time. It follows an unconstrained, non-benchmark oriented approach to identify attractively valued companies positioned to benefit from the infrastructure theme.

Investing involves risk including the risk of loss of capital. Past performance does not predict future returns. Neither simulated nor historical performance is a reliable indicator for current or future performance.

Performance overview - monthly & cumulative

since 01.01.2024

Performance overview - cumulative

since 01.03.2014

Until **14.12.2017**, the Fund had different characteristics and performance was achieved under circumstances that no longer apply. Repositioning as per 14.12.2017 (Old Fund name: CSIF 2 – CS (Lux) Infrastructure Equity Fund).

Potential Risks

The Fund's risk and reward profile does not reflect the risk inherent in future circumstances that differ from what the Fund has experienced in the recent past. This includes the following events which are rare but can have a large impact.

- **Liquidity risk:** Assets cannot necessarily be sold at limited cost in an adequately short timeframe. The Fund's investments may be prone to limited liquidity. The Fund will endeavor to mitigate this risk by various measures.
- **Counterparty risk:** Bankruptcy or insolvency of the Fund's derivative counterparties may lead to payment or delivery default.
- **Operational risk:** Deficient processes, technical failures or catastrophic events may cause losses.
- **Political and Legal risks:** Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks.
- **Sustainability risks:** Sustainability risks are environmental, social or governance events or conditions that can have a material negative effect on the return, depending on the relevant sector, industry and company exposure.

The product's investment objectives, risks, charges and expenses, as well as more complete information about the product, are provided in the prospectus (or relevant offering document), which should be read carefully before investing.

Investors may lose part or all of their invested amount.

The full offering documentation including complete information on risks may be obtained free of charge from a Credit Suisse client advisor, representative, or, where applicable, via Fundsearch (credit-suisse.com/fundsearch).

The investment promoted in this marketing material concerns the acquisition of units or shares in a fund and not of any underlying assets. The underlying assets are owned by the fund only.

² The risk indicator assumes you keep the Product for 7 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less. The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. Be aware of currency risk if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance commentary

The fund underperformed the broader equity market as measured by the MSCI World (NR) Index (source: Aladdin, gross of fees in USD). Among the largest contributors to the fund's monthly performance were midstream companies Oneok and Targa Resources. Both companies reported strong momentum in their core business. Data center REIT Equinix delivered strong Q4 2023 numbers and indicated that pricing strength continues, primarily driven by low vacancies and ongoing strong demand. In contrast, Westshore Terminal (port), E.On (electric utility), as well as Veolia Environmental (utility) detracted most from the fund's performance.

Market comments

During the last month, equity markets continued to trend higher as investors rewarded recent earnings reports with strong fundamentals, particularly from the tech-related sectors. However, the US consumer price index report, which came in above economists' forecasts, was a stark reminder of the challenges that the US Federal Reserve (Fed) faces in bringing down inflation to its 2% target. Infrastructure stocks underperformed the broader equity market (source: Bloomberg, NMX Infrastructure Composite Index, MSCI World [NR] Index) during this period. Among the different subthemes, waste utilities, data centers, railroads, and oil & gas transportation and storage performed best. Conversely, renewables and tower REITs suffered from an interim rise in US bond yields, while port companies were hit by higher shipping costs due to the Red Sea crisis. Furthermore, lower gas and power prices again put a burden on electric and gas utilities.

Comments on transactions

In February 2024, we decreased the weighting of the Utilities sector mainly in favor of transport infrastructure stocks. Triggered by falling power and gas prices, we further reduced our holdings in electric and multi-utilities in Europe, but also gas utilities. While we trimmed our position in Mexican airports, we increased our holdings in US and Canadian railroads, driven by a rise in the intermodal volumes. Within the Telecommunication bracket, we increased our exposure in data center REITs on the back of tower REITs. Driven by lower capital expenditures from telecom carriers, the tower owners reduced their guidance for organic growth.

ESG Approach

This fund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector). It applies the CSAM Sustainable Investing Policy (www.credit-suisse.com/esg), including norms-based, values-based and business conduct exclusions, to combine ESG factors with traditional financial analysis to make an ESG adjusted risk-return assessment, which serves as the basis for the portfolio construction. For further information about the ESG investment criteria and the sustainability-related aspects of the fund please consider the legal and regulatory documents of the fund (such as, e.g., the prospectus) and visit www.credit-suisse.com/esg. In addition to sustainability-related aspects, the decision to invest in the fund should take into account all objectives and characteristics of the fund as described in its prospectus, or in the information which is to be disclosed to investors in accordance with applicable regulations.

Certain data points are provided for mere transparency purposes and are not linked to a specific ESG investment process, nor to CSAM ESG methodology. For details about the fund's ESG decision-making process, please refer to the fund's prospectus.

ESG Overview

According to MSCI methodology. Fund performance against benchmark: MSCI World (NR).

	Portfolio	Benchmark
ESG Rating	AA	A
ESG Quality score	7.42	6.87
Environmental score	6.79	6.16
Social score	5.88	5.01
Governance score	6.09	5.76
Coverage for Rating/Scoring	99.47%	99.91%
Weighted Average Carbon Intensity (Tons of CO ₂ e/\$M sales)	370.70	95.60
Coverage for Carbon Intensity	99.47%	99.82%

Note: The total carbon intensity figure shown in this section may be higher than the total in the breakdown graph. This is because the figure is normalized, and actual weights are inflated because of limited data coverage. For further information on the MSCI methodology for the above listed ESG data points, please refer to the glossary.

⁴ If the currency of a financial product and/or its costs is different from your reference currency, the return and cost may increase or decrease as a result of currency fluctuations.

⁵ Active Ownership is part of the fund's strategy to act in the best interests of its investors and to preserve and optimize the long-term value of their investments. To promote best practices and to ensure that the investee companies are sustainable and successful in the long term, Active Ownership is designed to influence the investee companies on two levels: first, through proxy voting, and second, through engagement. In the case of investments in other funds (Target Funds), the fund has no or only limited ability to exercise Active Ownership on the Target Fund, resp. on the Target Funds' investee companies.

Top 10 positions - ESG Characteristics

In % of the fund's total economic exposure. Certain data points disclosed in this table are provided for mere transparency purposes and are not linked to a specific ESG investment process, nor to CSAM ESG methodology. Note: For further information on MSCI's ESG rating methodology and the difference between categories "not ratable" and "no data coverage", please refer to the glossary.

Asset breakdown by ESG controversy flag

In % of fund total economic exposure to investee companies. Fund performance against benchmark: MSCI World (NR). Source: MSCI

	Portfolio	Benchmark	Portfolio Benchmark
Green	55.19	33.15	
Yellow	34.68	34.79	
Orange	9.60	31.56	
Red	-	0.42	
No data coverage	0.28	0.07	

Note: Exposure to investee companies represents 99.75% of portfolio weight for this share class. MSCI only provides data on ESG controversies for corporate issuers. Any remaining instruments (e.g., government bonds) are excluded from this breakdown. For further information on MSCI's ESG controversy flag methodology, please refer to the glossary.

Carbon emission intensity contribution by GICS sector

Tons of CO₂ equivalent emission intensity (GHG scopes 1 & 2) per \$m sales, by GICS sector split. Fund performance against benchmark: MSCI World (NR). Source: MSCI

	Portfolio	Benchmark	Portfolio Benchmark
Industrials	125.07	9.50	
Energy	121.71	14.41	
Utilities	70.95	32.66	
Real Estate	47.05	1.98	
Others	3.96	36.88	
Total	368.75	95.43	

Note: Security weighted data coverage is 99.47% for the portfolio. The total shown in this section may be lower than the one in the 'ESG Overview' section. This is because the figures in this breakdown are not normalized and use the actual weights. For further information on the Carbon emission intensity, please refer to the glossary.

⁶ The individual entities and/or instruments mentioned on this page are meant for illustration purposes only and are not intended as a solicitation or an offer to buy or sell any interest or any investment.

Glossary

Accumulating	Indicates a regular reinvestment of the dividends received in the portfolio itself
Annualized Risk	Annualized risk is a statistic, which is used to measure the risk of a fund by describing the range of returns, which were achieved in the observation period are most likely to be achieved. Greater volatility implies greater risk.
Beta	A measure of the volatility, or systematic risk, of a single security or fund in comparison to the market as a whole.
Carbon emission intensity	The weighted average emissions intensity, which is provided by MSCI ESG, divides the Scopes 1 & 2 emissions in tons of CO ₂ -equivalent by million \$ sales. Intensities are broken down by GICS sector and are security weighted.
ESG aware	This product undertakes investments that explicitly assess and integrate the sustainability characteristics of companies in the investment process.
ESG benchmark	A ticked 'ESG benchmark' box reflects that the ESG section in this document compares the ESG performance of the portfolio with an ESG index. In case the box is not ticked, this means that the ESG section in this document compares the ESG performance of the portfolio with a non-ESG index or that no comparison is performed due to a lack of a recognized benchmark. The investor shall read the legal documentation of the Fund to understand how the benchmark is used. In any case, a ticked 'ESG benchmark' box does not mean that the ESG benchmark is used to attain the ESG strategy of the fund.
ESG Controversy Flag	ESG Controversy Flag is designed to provide timely and consistent assessments of ESG controversies involving publicly traded companies and fixed income issuers. A controversy case is typically a one-off event such as an environmental oil spill, an accident, or allegations such as safety issues in a production facility. Controversy flags can be red, orange, yellow or green. Red indicates that a company is involved in one or more very severe controversies. Orange indicates that a company has been involved in one or more recent severe structural controversies that are ongoing. Yellow indicates that the company is involved in severe-to-moderate level controversies. Green indicates that the company is not involved in any major controversies. For further information on the methodology, please refer to www.msci.com/our-solutions/esg-investing/ .
ESG Quality score	The ESG Quality score, based on MSCI ESG scores of underlyings, is measured on a scale from 0 (very poor) to 10 (very good). It does not correspond directly to the underlying Environment, Social and Governance Pillar scores. The Pillar scores are derived on an absolute basis, while the portfolio ESG Quality score is adjusted by MSCI to reflect the industry-specific level of ESG risk exposure. As Pillar scores are absolute, and the portfolio ESG Quality score is relative, the first cannot be averaged to derive the latter. The coverage rate is security weighted.
Issuer ESG Rating	Company and Government ESG Ratings, which are provided by MSCI ESG, are measured on a scale from AAA (highest rating) to CCC (lowest rating). Company ESG Ratings are based on the issuer's exposure to industry specific ESG risks and its ability to mitigate those risks relative to peers. Company ESG Ratings are calculated on an industry relative basis while the underlying individual E, S and G Ratings are absolute. Hence, the ESG Rating cannot be seen as an average of the individual E, S and G Ratings. Government ESG Ratings identify a country's exposure to and management of ESG risk factors and explain how these factors might impact the long-term sustainability of its economy. They are derived from 0-10 scores on underlying factors in the E, S and G pillars. For further information on the MSCI methodology, please refer to www.msci.com/our-solutions/esg-investing/ .
Ex post	Refers to metrics based on historical data
GICS	Global Industry Classification Standard
Greenhouse gas (GHG) emissions	Scope 1 emissions are generated by a company directly from owned or controlled sources such as the burning of fuels (stationary or mobile), industrial processes, etc. Scope 2 emissions are indirect emissions, primarily those associated with the electricity consumed by a company. Scope 3 emissions are all other indirect emissions associated with a company's operations, such as business travel, waste generated, and products both upstream (in the supply chain) and downstream (use of the products and end of life). Scope 3 emissions typically account for the largest proportion of a company's emissions.
Information ratio	This statistic measures how much a fund's out-performance may be attributed to manager skill as oppose to market movement. A high Information Ratio infers more manager skill than a low value would suggest.
Maximum drawdown	Represents the worst possible result (in percentage terms) that occurred during the period being analyzed.
MTD	Month-to-date
MSCI	MSCI refers to the external data provider MSCI ESG Research LLC and/or its affiliates.
MSCI ESG Methodology	For further information on the methodology applied to assess the ESG characteristics of the investments, please refer to www.msci.com/our-solutions/esg-investing/
NAV	Net Asset Value
Not ratable / No data coverage	Where MSCI considers an asset type for ESG analysis but data on an economic exposure is unavailable due to a lack of data from the data vendor, the investment falls under the category "No data coverage". Where MSCI considers an asset type out of scope for ESG analysis (e.g. Cash, Currency), the economic exposure falls under the category "Not ratable". For further information regarding excluded asset types, please refer to www.msci.com/our-solutions/esg-investing/ .
Ongoing Charges	The calculation of the ongoing charge is based on the Committee of European Securities Regulators/10-674 Directive. For a maximum of 12 months from fund fiscal year end and since inception, the ongoing charges figure is based on estimated expenses. After that, the ongoing charges correspond to the TER of the last annual report. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling shares/units in another collective investment undertaking.
Portfolio/Benchmark ESG Rating	Discrepancies may exist between the portfolio-level ESG Rating calculated by CSAM applying the MSCI methodology (provided in this factsheet) and the ESG Ratings displayed by other providers (e.g., MSCI ESG fund ratings). There are three main reasons for these potential deviations: (1) CSAM uses updated month-end holdings data as basis for its calculation, (2) CSAM consistently uses underlying issuer data where applicable (e.g., equity issuer in case of a convertible bond), and (3) look-through approach for target funds applied by CSAM. The coverage rate is security weighted. For further information on the MSCI methodology, please refer to www.msci.com/oursolutions/esg-investing/ .
QTD	Quarter-to-date
Sustainable Finance Disclosure Regulation (SFDR)	Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector
Sustainable investment objective	Where the 'sustainable investment objective' box is ticked, this means that the product implements CSAM investment strategies that allocate capital into companies that offer solutions to society's challenges and meet a sustainable investment objective. The sustainable investment objective is achieved through a dedicated investment process focusing on investments in themes and sectors whose economic activities address specific ESG challenges. An unticked box reflects that the product does not aim to meet a sustainable investment objective.
TNA	Total Net Assets
Tracking error	Measure of the deviation of the return of a fund compared to the return of a benchmark over a fixed period of time.
YTD	Year-to-date

Warning statements

Asset breakdown	Indicative allocation may change over time. All holdings are shown strictly for information purposes only and do not constitute investment recommendations of Credit Suisse. Please note that this does not constitute an offer or a solicitation to buy or sell any interest or any investment.
Swinging Single Pricing	For more details, please refer to the relevant chapter "Net Asset Value" of the fund's prospectus
Performance start date	Performance calculation and presentation start with the first full month of an invested strategy. This can lead to a difference in launch and performance start dates.
PRIIP SRI	The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets.

ESG Notes

The figures contained in this section are not audited. Where ESG related information, statements and scorings are made in this document, CS may have, partially or entirely, relied on publicly available information, internally developed data and/or information obtained from other third-party sources which CS believes to be reliable. CS' ability to verify such ESG objectives may be limited by the reliability of the data available in respect of the underlying assets and the status of the regulations in relation to tracking and providing such data. CS has not independently verified any information obtained from these public and third-party sources and cannot make any representations or warranties as to its accuracy, completeness or reliability. It is possible that the data from ESG data providers may be incorrect, unavailable, or not fully updated. This is especially true where CS has limited access to data from external parties regarding the underlying elements of an investment, for example due to a lack of look-through data. Such data gaps could result in an incorrect assessment of a sustainability practice and/or related sustainability risks and opportunities. Investors shall not use the ESG data provided in this document for the sake of meeting their own regulatory disclosure or reporting requirements. CS cannot make any guarantee about the content or completeness of such ESG disclosures, which remain subject to change and cannot be relied upon. In particular, CS shall not be liable for any errors or omissions in connection with any ESG data herein, or for any direct, indirect, special, punitive, consequential or any other damages (including lost profits). In the absence of a standardized, industry-wide ESG classification system, CS has developed its own ESG framework (the "CS Sustainable Investment Framework"). Therefore, investors should note that the ESG classification of the fund reflects CS' opinion and is based on the CS Sustainable Investment Framework which classification may vary from the classification made by third parties. The fact that a fund follows the CS Sustainable Investment Framework does not necessarily mean that it meets the investors overall investment objectives, nor their sustainability preferences. Given that sustainability regulations and guidelines are still developing, CS may need to review certain ESG classifications/descriptions as industry practices change and as more regulatory guidance becomes available. The ESG-performance of a portfolio might also differ from its financial performance and CS cannot make any representation as to the correlation between financial and ESG performance. Sustainability-related practices also differ by region, industry and ESG issue and are continually evolving. Consequently, sustainability-related practices may change over time. Similarly, new local sustainability requirements may result in additional compliance costs, disclosure obligations or other restrictions on the fund. CS' view on the appropriate classification may also evolve over time, including in response to regulatory guidance or changes in industry approach to classification.

The full offering documentation including, the prospectus or offering memorandum, the Key Investor Information Document (KIID), the Key Information Document (KID), the fund rules, as well as the annual and bi-annual reports ("Full offering documentation"), as the case may be, may be obtained free of charge in one of the languages listed below from the legal entity/entities indicated below and where available via FundSearch (credit-suisse.com/fundsearch).

Information on your local distributors, representatives, information agent, paying agent, if any, and your local contacts in respect of the investment product(s) can be found below.

The only legally binding terms of any investment product described in this material, including risk considerations, objectives, charges and expenses are set forth in the prospectus, offering memorandum, subscription documents, fund contract and/or any other fund governing documents.

For a full description of the features of the products mentioned in this material as well as a full description of the opportunities, risks, and costs associated with the respective products, please refer to the relevant underlying securities prospectuses, sales prospectuses, or other additional product documents, which we will be pleased to provide to you at any time upon request.

The investment promoted in this marketing material concerns the acquisition of units or shares in a fund and not of any underlying assets. The underlying assets are owned by the fund only.

This material may not be forwarded or distributed to any other person and may not be reproduced. Any forwarding, distribution or reproduction is unauthorized and may result in a violation of the U.S. Securities Act of 1933, as amended (the "Securities Act"). The securities referred to herein have not been, and will not be, registered under the Securities Act, or the securities laws of any states of the United States and, subject to certain exceptions, the securities may not be offered, pledged, sold or otherwise transferred within the United States or to, or for the benefit or account of, U.S. persons.

In addition, there may be conflicts of interest with regard to the investment.

In connection with the provision of services, Credit Suisse AG and/or its affiliates may pay third parties or receive from third parties, as part of their fee or otherwise, a one-time or recurring fee (e.g., issuing commissions, placement commissions or trailer fees).

Prospective investors should independently and carefully assess (with their tax, legal and financial advisers) the specific risks described in available materials, and applicable legal, regulatory, credit, tax and accounting consequences prior to making any investment decision.

The alternative investment fund manager or the (UCITS) management company, as applicable, may decide to terminate local arrangements for the marketing of the shares/units of a fund, including terminating registrations or notifications with the local supervisory authority.

A summary of investor rights for investing into European Economic Area domiciled investment funds managed or sponsored by Credit Suisse Asset Management can be obtained in English via www.credit-suisse.com/am/regulatory-information, local laws relating to investor rights may apply.

ปัจจัยความเสี่ยงของกองทุนรวม

1. ความเสี่ยงจากความผันผวนของราคาตราสารในตลาด (Market Risk)

คือความเสี่ยงจากความผันผวนของราคาหลักทรัพย์ที่กองทุนเข้าไปลงทุน ที่เกิดจากการเปลี่ยนแปลงในสถานะการณ์ทางเศรษฐกิจ สังคม และการเมือง ซึ่งเป็นความเสี่ยงที่ไม่สามารถควบคุมได้

แนวทางการบริหารเพื่อลดความเสี่ยง :

บริษัทจัดการจะวิเคราะห์ปัจจัยต่างๆรวมทั้งติดตามสถานการณ์การเปลี่ยนแปลงที่อาจมีผลกระทบต่อราคาและยังสามารถปรับสัดส่วนการลงทุนในกองทุนหลักได้ตามความเหมาะสม ซึ่งจะเป็นการช่วยลดผลกระทบต่อราคามูลค่าทรัพย์สินสุทธิของกองทุน

2. ความเสี่ยงจากความมั่นคงของผู้ออกตราสาร (Credit Risk)

ความเสี่ยงที่เกิดขึ้นจากการดำเนินงานและฐานะการเงินของบริษัทผู้ออกตราสาร รวมทั้งความสามารถในการจ่ายเงินต้นและดอกเบี้ย

แนวทางการบริหารความเสี่ยง :

บริษัทจัดการอาจลดความเสี่ยงด้านนี้ลงได้จากการเลือกลงทุนในตราสารที่มีคุณภาพดีทั้งในด้านความน่าเชื่อถือ และความสามารถในการชำระหนี้ของผู้ออกตราสาร

3. ความเสี่ยงจากการเปลี่ยนแปลงของอัตราดอกเบี้ย (Interest Rate Risk)

ความเสี่ยงทั่วไปที่ราคาของตราสารหนี้จะเปลี่ยนแปลงในทิศทางตรงข้ามกับการเปลี่ยนแปลงของอัตราดอกเบี้ยและตามปกติตราสารหนี้ที่มีอายุคงเหลือที่ยาวนานเท่าไร การเปลี่ยนแปลงของอัตราดอกเบี้ยก็จะมีผลกระทบต่อราคาของตราสารมากขึ้นเท่านั้น

แนวทางการบริหารเพื่อลดความเสี่ยง :

บริษัทจัดการสามารถลดความเสี่ยงด้านนี้ลงได้ โดยติดตามวิเคราะห์ปัจจัยที่มีผลกระทบต่อระดับราคาของตราสารอย่างสม่ำเสมอและต่อเนื่อง

4. ความเสี่ยงด้านอัตราแลกเปลี่ยนเงินตราและค่าเงิน (Foreign Exchange Risk)

ความเสี่ยงที่การลงทุนอาจประสบกับความผันผวนของอัตราแลกเปลี่ยน ทำให้อัตราผลตอบแทนในรูปเงินบาทผันผวนหากค่าเงินตราสกุลต่างประเทศมีการเปลี่ยนแปลง

แนวทางการบริหารเพื่อลดความเสี่ยง:

กองทุนอาจใช้เครื่องมือป้องกันความเสี่ยงดังกล่าวโดยขึ้นอยู่กับดุลยพินิจของบริษัทจัดการ ซึ่งอาจมีต้นทุนสำหรับการทำธุรกรรมป้องกันความเสี่ยง โดยอาจทำให้ผลตอบแทนของกองทุนโดยรวมลดลงจากต้นทุนที่เพิ่มขึ้น

5. ความเสี่ยงจากการลงทุนในสัญญาซื้อขายล่วงหน้า (Derivatives Risk)

สัญญาซื้อขายล่วงหน้าบางประเภทอาจมีการขึ้นลงผันผวน (volatile) มากกว่าหลักทรัพย์พื้นฐาน ดังนั้นหากกองทุนมีการลงทุนในหลักทรัพย์ดังกล่าวย่อมทำให้สินทรัพย์มีความผันผวนมากกว่าการลงทุนในหลักทรัพย์พื้นฐาน (Underlying Security)

แนวทางการบริหารเพื่อลดความเสี่ยง :

กองทุนอาจจะลงทุนใน สัญญาซื้อขายล่วงหน้าที่มีตัวแปรเป็นอัตราแลกเปลี่ยน โดยมีวัตถุประสงค์เพื่อลดความเสี่ยงเท่านั้นทั้งนี้การป้องกันความเสี่ยงดังกล่าวอาจทำให้กองทุนเสียโอกาสที่จะได้รับผลตอบแทนที่เพิ่มขึ้น หากอัตราแลกเปลี่ยนมีการเปลี่ยนแปลงไปในทางตรงข้ามกับที่กองทุนคาดการณ์ไว้ อย่างไรก็ตามกองทุนยังคงมีความเสี่ยงจากการที่คู่สัญญาไม่ปฏิบัติตาม

เพื่อลดความเสี่ยงดังกล่าวกองทุนจะทำธุรกรรมดังกล่าวกับธนาคารที่มีกฎหมายเฉพาะจัดตั้งขึ้นหรือธนาคารพาณิชย์

6. ความเสี่ยงของประเทศที่ลงทุน (Country Risk)

คือ ความเสี่ยงที่เกิดจากการเปลี่ยนแปลงภายในประเทศที่กองทุนเข้าไปลงทุน เช่น การเปลี่ยนแปลงผู้บริหาร, การเปลี่ยนแปลงนโยบายทางด้านเศรษฐกิจ หรือสาเหตุอื่นๆ จนทำให้ไม่สามารถชำระค่าขายคืนหน่วยลงทุนได้ตรงตามระยะเวลาที่กำหนด

แนวทางการบริหารเพื่อลดความเสี่ยง:

บริษัทจัดการจะวิเคราะห์ปัจจัยต่างๆรวมทั้งติดตามสถานการณ์การเปลี่ยนแปลงที่อาจมีผลกระทบต่อราคาและยังสามารถปรับสัดส่วนการลงทุนในกองทุนหลักได้ตามความเหมาะสม ซึ่งจะเป็นการช่วยลดผลกระทบต่อราคามูลค่าทรัพย์สินสุทธิของกองทุน

7. ความเสี่ยงจากข้อจำกัดการนำเงินลงทุนกลับประเทศ (Repatriation Risk)

เป็นความเสี่ยงที่เกิดจากการเปลี่ยนแปลงภายในประเทศที่กองทุนลงทุน เช่น การเปลี่ยนแปลงทางการเมือง ข้อจำกัดกฎเกณฑ์หรือนโยบายต่างๆ ของรัฐบาลในการบริหารประเทศ ซึ่งรวมถึงสาเหตุอื่นๆ ที่อาจทำให้ไม่สามารถชำระหนี้ได้ตรงตามระยะเวลาที่กำหนด รวมถึงอาจทำให้กองทุนเกิดความเสี่ยงจากสัญญาสวอป และ/หรือสัญญาฟอเวิร์ดได้ซึ่งมีผลต่อผลตอบแทนที่กองทุนจะได้รับจากการลงทุน

แนวทางการบริหารเพื่อลดความเสี่ยง :

บริษัทจัดการจะติดตามสถานการณ์การเปลี่ยนแปลงการเมือง ภาวะเศรษฐกิจ ภาวะตลาดเงิน ตลาดทุน ตลอดจนปัจจัยพื้นฐานต่างๆของประเทศที่กองทุนลงทุนอย่างใกล้ชิด เพื่อประเมินความเสี่ยงจากการลงทุนในประเทศนั้นๆเพื่อลดความเสี่ยงในส่วนนี้

8. ความเสี่ยงทางธุรกิจ (Business Risk)

ความเสี่ยงที่เกิดจากผลการดำเนินงานของผู้ออกตราสารที่ลงทุนไปลงทุน ซึ่งเกิดจากการเปลี่ยนแปลงความสามารถในการทำกำไรของบริษัท โดยเฉพาะมีสาเหตุจากภาวะการแข่งขัน ความผิดพลาดของผู้บริหาร เป็นต้น ทำให้ผู้ลงทุนในตราสารต้องสูญเสียเงินลงทุนได้

แนวทางการบริหารเพื่อลดความเสี่ยง :

บริษัทจัดการวิเคราะห์ปัจจัยต่างๆ ที่มีผลกระทบต่อราคา และคัดเลือกตราสารที่มีคุณภาพ เพื่อลดความเสี่ยงในส่วนนี้ รวมทั้งสามารถพิจารณาปรับสัดส่วนการลงทุนไปลงทุนได้ทั้งตราสารหนี้และตราสารทุนโดยคำนึงถึงประโยชน์ของผู้ลงทุนเป็นสำคัญ
