คำอธิบาย

Maximum Drawdown : เปอร์เซ็นต์ผลขาดทุนสูงสุดของกองทุนรวมในระยะเวลา 5 ปี ย้อนหลัง (หรือตั้งแต่จัดตั้งกองทุนกรณีที่ยังไม่ครบ 5 ปี) โดยวัดจากระดับ NAV ต่อหน่วยที่จุดสูงสุด ไปจนถึงจุดต่ำสุดในช่วงที่ NAV ต่อหน่วยปรับตัวลดลง ค่า Maximum Drawdown เป็นข้อมูลที่ช่วยให้ทราบถึงความเสี่ยงที่อาจจะขาดทุนจากการลงทุนในกองทุนรวม

Recovering Period : ระยะเวลาการฟื้นตัว เพื่อเป็นข้อมูลให้ผู้ลงทุนทราบถึงระยะเวลาดังแต่การขาดทุนสูงสุดจนถึงระยะเวลาที่ฟื้นกลับมาที่เงินลงทุนเริ่มต้นใช้ระยะเวลาสั้นเท่าใด

อัตราส่วนหมุนเวียนการลงทุน : ความถี่ของการซื้อขายหลักทรัพย์ในพอร์ตกองทุนในช่วงเวลาใดช่วงเวลานึง โดยคำนวณจากมูลค่าที่ต่ำกว่าระหว่างผลรวมของมูลค่าการซื้อขายหลักทรัพย์กับผลรวมของมูลค่าการขายหลักทรัพย์ของกองทุนรวมในรอบระยะเวลา 1 ปีหารด้วยมูลค่า NAV ของกองทุนรวมเฉลี่ยในรอบระยะเวลาเดียวกัน กองทุนรวมที่มีค่า portfolio turnover สูง บ่งชี้ถึงการซื้อขายหลักทรัพย์บ่อยครั้งของผู้จัดการกองทุนและทำให้มีต้นทุนการซื้อขายหลักทรัพย์ที่สูง จึงต้องพิจารณาเปรียบเทียบกับผลการดำเนินงานของกองทุนรวมเพื่อประเมินความคุ้มค่าของการซื้อขายหลักทรัพย์ดังกล่าว

Sharpe Ratio : อัตราส่วนระหว่างผลตอบแทนส่วนเพิ่มของกองทุนรวมเปรียบเทียบกับความเสี่ยงจากการลงทุน โดยคำนวณจากผลต่างระหว่างอัตราผลตอบแทนของกองทุนรวมกับอัตราผลตอบแทนที่ปราศจากความเสี่ยง (risk-free rate) เปรียบเทียบกับค่าเบี่ยงเบนมาตรฐาน (standard deviation) ของกองทุนรวม ค่า Sharpe Ratio สะท้อนถึงอัตราผลตอบแทนที่กองทุนรวมควรได้รับเพิ่มขึ้นเพื่อชดเชยกับความเสี่ยงที่กองทุนรวมรับมา โดยกองทุนรวมที่มีค่า Sharpe Ratio สูงกว่าจะเป็นกองทุนที่มีประสิทธิภาพในการบริหารจัดการลงทุนที่ดีกว่า เนื่องจากได้รับผลตอบแทนส่วนเพิ่มที่สูงกว่าภายใต้ระดับความเสี่ยงเดียวกัน

Alpha : ผลตอบแทนส่วนเกินของกองทุนรวมเมื่อเปรียบเทียบกับดัชนีชี้วัด (benchmark) โดยค่า Alpha ที่สูง หมายถึง กองทุนสามารถสร้างผลตอบแทนได้สูงกว่าดัชนีชี้วัด ซึ่งเป็นผลจากประสิทธิภาพของผู้จัดการกองทุนในการคัดเลือกหรือจัดพอร์ตการลงทุนในหลักทรัพย์ได้อย่างเหมาะสม

Beta : ระดับและทิศทางการเปลี่ยนแปลงของอัตราผลตอบแทนของหลักทรัพย์ในพอร์ตการลงทุน โดยเปรียบเทียบกับอัตราการเปลี่ยนแปลงของตลาด Beta น้อยกว่า 1 แสดงว่าหลักทรัพย์ในพอร์ตการลงทุนมีการเปลี่ยนแปลงของอัตราผลตอบแทนน้อยกว่าการเปลี่ยนแปลงของอัตราผลตอบแทนของกลุ่มหลักทรัพย์ของตลาด Beta มากกว่า 1 แสดงว่า หลักทรัพย์ในพอร์ตการลงทุนมีการเปลี่ยนแปลงของอัตราผลตอบแทนมากกว่าการเปลี่ยนแปลงของอัตราผลตอบแทนของกลุ่มหลักทรัพย์ของตลาด

Tracking Error : เพื่อให้พิจารณาความผันผวนของส่วนต่างของผลตอบแทนเฉลี่ยของกองทุนรวมและผลตอบแทนของดัชนีชี้วัด ซึ่งสะท้อนให้เห็นถึงประสิทธิภาพในการเลียนแบบดัชนีชี้วัดของกองทุนรวมว่ามีการเบี่ยงเบนออกไปจากดัชนีชี้วัด มากน้อยเพียงใด เช่น หากกองทุนรวมมีค่า TE ต่ำ แสดงว่า อัตราผลตอบแทนของกองทุนมีการเบี่ยงเบนออกไปจากดัชนีชี้วัดในอัตราที่ต่ำ ดังนั้น กองทุนรวมนี้จึงมีประสิทธิภาพในการเลียนแบบดัชนีชี้วัด ในขณะที่ยังมีค่า TE สูง แสดงว่าอัตราผลตอบแทนของกองทุนรวมมีการเบี่ยงเบนออกจากดัชนีชี้วัดในอัตราที่สูง ดังนั้น โอกาสที่ผลตอบแทนการลงทุนจะเป็นไปตามผลตอบแทนของ benchmark ก็จะลดน้อยลง เป็นต้น

Yield to Maturity : อัตราผลตอบแทนจากการลงทุนในตราสารหนี้โดยถือจนครบกำหนดอายุ ซึ่งคำนวณจากดอกเบี้ยที่จะได้รับในอนาคตตลอดอายุตราสารและเงินต้นที่จะได้รับคืนนำมาคิดลดเป็นมูลค่าปัจจุบัน โดยใช้ตัวอัตราผลตอบแทนของกองทุนรวมตราสารหนี้ ค่าคำนวณจากค่าเฉลี่ยถ่วงน้ำหนักของ Yield to Maturity ของตราสารหนี้แต่ละตัวที่กองทุนมีการลงทุน และเนื่องจาก Yield to Maturity มีหน่วยมาตรฐานเป็นเปอร์เซ็นต์ต่อปี จึงสามารถนำไปใช้เปรียบเทียบกับอัตราผลตอบแทนระหว่างกองทุนรวมตราสารหนี้ที่มีนโยบายถือครองตราสารหนี้จนครบกำหนดอายุและมีลักษณะการลงทุนที่ใกล้เคียงกันได้

Objective and Investment Policy

The aim of the Fund is to generate the highest possible return for its shareholders and outperform the S&P Global Infrastructure Index by investing primarily in shares of listed companies operating in infrastructure related sectors. The Fund will invest primarily in shares of companies listed or traded on the major worldwide stock exchanges which generate a substantial portion of their turnover from the provision of sustainable infrastructure facilities and services. Such companies are primarily involved in the supply or treatment of water, waste water and energy, or in the provision, maintenance or enhancement of energy infrastructure, water infrastructure or infrastructure designed to support the production and efficient distribution of food and crops. The Fund is considered to be actively managed in reference to the S&P Global Infrastructure Index by virtue of the fact that it uses the Index for performance comparison purposes. However the Index is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Index.

Performance evolution (rebased to 100) from 03/05/2019 to 28/03/2024* (Source: Fund Admin)

Risk Indicator (Source: Fund Admin)

Lower Risk Higher Risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is "a medium" risk class. This rates the potential losses from future performance at a medium level, however poor market conditions could impact the ability to provide a positive return on your investment. The Risk Factors applicable to the Fund are liquidity risk, counterparty risk, emerging markets risk, currency risk, operational risk and interest rate risk.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Fund prospectus.

* The Fund has the provision to apply an anti-dilution levy (ADL). This is an allocation of the fund's trading costs to the investments which have created those costs. It is used to protect the majority of investors from the costs of trading by a minority. It is only applied on dealing days when net daily subscriptions or redemptions exceed a threshold specified by the Fund. The ADL is a max of 0.25% and proceeds from the ADL are paid into the Fund and are not paid to the fund manager.

EQUITY ■

Important information

Issued by Amundi Asset Management, SAS. KBI GLOBAL SUSTAINABLE INFRASTRUCTURE FUND (the "Fund"), is a sub-fund of KBI Funds ICAV, an open-ended umbrella type Irish collective asset-management vehicle ("ICAV") with limited liability and segregated liability between its sub-funds. The ICAV is registered and authorised by the Central Bank of Ireland to carry on business as an ICAV, pursuant to Part 2 of the Irish Collective Asset-management Vehicles Act, 2015 and an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (S.I. No. 352 of 2011) (as amended). The management company of the ICAV is Amundi Ireland Limited, 1 George's Quay Plaza, George's Quay Dublin 2, Ireland, being hereinafter referred to as "Amundi".

This is a marketing communication. Please refer to the Prospectus / information document and to the KIID before making any final investment decisions.

This material is for information purposes only, is not a recommendation, financial analysis or advice, and does not constitute a solicitation, invitation or offer to purchase or sell the Fund in any jurisdiction where such offer, solicitation or invitation would be unlawful.

This information is not for distribution and does not constitute an offer to sell or the solicitation of any offer to buy any securities or services in the United States or in any of its territories or possessions subject to its jurisdiction or for the benefit of any U.S. Person (as defined in the prospectus of the Fund). The Fund have not been registered in the United States under the Investment Company Act of 1940 and units of the Funds are not registered in the United States under the Securities Act of 1933. Accordingly, this material is for distribution or to be used solely in jurisdictions where it is permitted and to persons who may receive it without breaching applicable legal or regulatory requirements, or that would require the registration of Amundi or its affiliates in these countries.

Please note that the management company may de-notify arrangements made for marketing as regards units/shares of the Fund in a Member State of the EU in respect of which it has made a notification.

Investment involves risk. The decision of an investor to invest in the Funds should take into account all the characteristics or objectives of the Funds. **Past performance does not predict future results.** Investment return and the principal value of an investment in the Fund may go up or down and may result in the loss of the amount originally invested. All investors should seek professional advice prior to any investment decision, in order to determine the risks associated with the investment and its suitability. It is the responsibility of investors to read the legal documents in force in particular the current prospectus of the Fund. Subscriptions in the Fund will only be accepted on the basis of their latest prospectus and/or, as applicable, the Key Investor Information Document ("KIID") available in local language in EU countries of registration. A summary of information about investors rights' and collective redress mechanisms can be found in English on the regulatory page at <https://about.amundi.com/Metana-Header/Quick-Links/Legal-documentation>.

Investors should read the Prospectus and the KIID before deciding to invest in the Fund. The Prospectus and the Key Investor Information Document ("KIID"), which together with the latest annual and semi-annual reports (if any) may be obtained, free of charge, at the registered office of the Fund (3rd Floor, 2 Harbourmaster Place, IFSC Dublin 1, D01 X5P3, Ireland), at our website via the following link <https://www.kbiglobalinvestors.com/fund-centre/europe/kbi-institutional-fund-icav/> or from the Fund's authorised distributors. Subscriptions in the Fund will only be accepted on the basis of the latest Prospectus available in English.

This is an advertising document. The state of the origin of the fund is Ireland. In Switzerland, the representative is Acolin Fund Services AG, Leutschenbachstrasse 50, CH-8050 Zurich, whilst the paying agent is NPB Neue Privat Bank AG, Limmatquai 1/am Bellevue, P.O. Box, CH-8024 Zurich. The prospectus, the key information documents or the key investor information documents, the articles of association as well as the annual and semi-annual reports may be obtained free of charge from the representative. Past performance is no indication of current or future performance. Please note Investors are responsible for compliance with any applicable local laws. For Dutch Investors please note this Fund is a UCITS (ICBE) as defined in section 1:1 Financial Markets Supervision Act (Wet op het financieel toezicht; "FMSA). The Fund is listed in the register as defined in section 1:107. The performance data does not take account of the commissions and costs incurred on the issue and redemption of units.

The source of the data contained in this document is Amundi, unless otherwise mentioned.

This document is designed exclusively for institutional, professional, qualified or sophisticated investors and distributors. It is not meant for the general public or private clients of any jurisdiction or those qualified as 'US Persons'. Approved investors in regard to the European Union are those which are defined as "Professional" investors in Directive 2004/39/EC of 21 April 2004 "MiFID" or, as the case may be, as defined under each local legislation and, insofar as the offer in Switzerland is concerned, "qualified investors" as set forth in the federal Law on Collective Investments (LPCC), the Ordinance on collective investments of 22 November 2006 (OPCC) and the FINMA 08/8 Circular regarding the legislation on collective investments of 20 November 2008. This document shall not, under any circumstance, be sent within the European Union to non "Professional" investors as defined by the MFI or under each local legislation, or in Switzerland to those investors which are not defined as "qualified investors" in the applicable law and regulations.

Lazard Global Listed Infrastructure Equity Fund

A Acc USD Hedged Share Class | IE00B3X5FG30

A sub-fund of Lazard Global Active Funds PLC, an Irish UCITS investment fund company

March
2024
Fact Sheet

This is a marketing communication. This is not a contractually binding document. Please refer to the prospectus of the UCITS and to the PRIIPs KID before making any final investment decisions.

Fund Description

Lazard's Global Listed Infrastructure Equity Fund is an actively managed portfolio that typically invests in equity securities of infrastructure companies with a minimum market capitalization of \$250 million. The Fund uses a "Preferred Infrastructure" philosophy that focuses primarily on equity securities of companies that own physical infrastructure assets that meet certain preferred criteria, such as revenue certainty, profitability and longevity.

Share Class

NAV \$4.35

Fund AUM

Class Currency \$1,319.77m
Base Fund Currency £1,044.74m

Risk Rating

Key Risks Related to the Fund

There is no capital guarantee or protection of the value of the Fund. The value of your investment and the income from it can go down as well as up and you may not get back the amount you originally invested.

As the Fund invests on a global basis in Infrastructure Companies, it may be less diversified than other funds investing in a broader range of industries. Securities and instruments of Infrastructure Companies may be more susceptible to adverse economic, political or regulatory occurrences affecting their industries and may be subject to a variety of factors that may adversely affect their business or operations, including additional costs, competition, regulatory implications and certain other factors.

Key Risks Related to the Share Class

Your shares will be hedged with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the base currency of the Fund. This may not completely eliminate currency risk and therefore, any residual risk may affect the performance of your shares.

See "Risk Factors" in the UCITS' Prospectus and Fund Supplement for more information about risks.

*Source: Morningstar, NAV to NAV Price, Net Income Reinvested, Net of Fees. The maximum initial subscription fee chargeable to the investor is 0% (i.e. USD 0 for an investment of USD 1,000). Performance data for periods less than 1 year is illustrated on a cumulative growth basis. UK investors may be liable to taxation on the income from the fund, depending upon their personal circumstances. The effect of taxation would have been to reduce the returns stated. The returns from your investment may be affected by changes in the exchange rate. As at 30 June 2018 the benchmark was changed from the FTSE Developed Core Infrastructure 50/50 Index to the MSCI World Core Infrastructure Index. Prior to 1 April 2015, the benchmark was the UBS Global 50/50 Infrastructure and Utilities Index.

Glossary

Active Share measured as a percentage, active share is the degree of deviation in holdings between a portfolio and its benchmark. Active share of a portfolio is calculated as half the sum of the absolute active weights of all securities in a portfolio and its benchmark. For portfolios without shorts, the statistic ranges from 0% (index tracker) to 100% (no overlap with index). The higher the number, the more "active" the manager is.

Alpha represents the return of a portfolio that is attributable to the manager's investment decisions.

Beta measures a fund's sensitivity to movements in the overall market.

EPS represents the fiscal period earnings per share (EPS) for the period.

Information ratio represents the value added by the manager (excess return) divided by the tracking error.

The **Ongoing Charges** represent the ongoing costs to the fund from one year to the next which includes but is not limited to the fund's annual management fees, professional fees, audit fees, custody fees and custody transaction fees. It

Settlement

Subscriptions Settlement	T+3
Redemptions Settlement	T+3
Dealing Frequency	You can buy and sell shares in the Fund on any day on which the stock exchanges in London, New York and Sydney are open for business.
Cut-off Time (Subscriptions)	15:00 T-0 IE Dublin
Cut-off Time (Redemptions)	15:00 T-0 IE Dublin

Identifiers

ISIN	IE00B3X5FG30

does not include any performance fee or portfolio transaction costs incurred buying or selling assets for the fund. The Ongoing charges may vary from year to year.

P/E Ratio/ Earnings Per Share (EPS).

Price to Book Value / Book Value per Share.

Return on Equity (ROE) calculated by taking earnings per share of the company and dividing it by the stock's book value.

The **Risk Rating** is calculated in line with PRIIPs Regulation 2014 (the "PRIIPs Regulations")

Sharpe ratio measures return in excess of the risk free rate for every unit of risk taken.

Tracking error measures the volatility of the difference between a portfolio's performance and the benchmark.

Volatility is a measure of the fund's returns in relation to its historic average.

Important Information

The Lazard Global Listed Infrastructure Equity Fund is a sub-fund of Lazard Global Active Funds plc, an open-ended investment company with variable capital structured as umbrella funds with segregated liability between sub-funds incorporated with limited liability and is authorised and regulated as UCITS by the Central Bank of Ireland.

MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indexes or any other securities or financial products. This report is not approved, reviewed or produced by MSCI.

All rights in the FTSE Developed Core Infrastructure 50/50 Index (the "Index") vest in FTSE International Limited ("FTSE"). "FTSE®" is a trademark of the London Stock Exchange Group companies and is used by FTSE under license. The investment product has been developed solely by Lazard Asset Management Limited. The Index is calculated by FTSE or its agent. FTSE and its licensors are not connected to and do not sponsor, advise, recommend, endorse or promote the investment product and do not accept any liability whatsoever to any person arising out of (a) the use of, reliance on or any error in the Index or (b) investment in or operation of the investment product. FTSE makes no claim, prediction, warranty or representation either as to the results to be obtained from the investment product or the suitability of the Index for the purpose to which it is being used by Lazard Asset Management LLC.

Lazard Fund Managers (Ireland) Limited is authorized and regulated in Ireland by the Central Bank of Ireland. Copies of the full Fund Prospectus, the relevant Packaged Retail and Insurance-based Investment Products Key Information Document (PRIIPs KID) and the most recent Report and Accounts are available in English, and other languages where appropriate at www.lazardassetmanagement.com. Investors and potential investors should read and note the risk warnings in the Prospectus and relevant PRIIPs KID. The fees and costs charged when issuing or repurchasing units or switching sub-funds, as well as any minimum subscription amounts, are as detailed in the PRIIPs KID.

The current document is provided for information purposes only. It should not be considered a recommendation or solicitation to purchase, retain or sell any particular security. Past performance is not a reliable indicator of future results. The value of investments and the income from them can fall as well as rise and you may not get back the amount you invested. There can be no assurance that the Fund's objectives or performance target will be achieved. Any investment is subject to fees, taxation and charges within the Fund and the investor will receive less than the gross yield. The performance shown does not take account of any commissions and costs charged when subscribing to and redeeming shares. Not for distribution in the United States, or to or for the account of US citizens or investors based in the US.

Please note that neither the Fund nor all share classes of the Fund are registered in every jurisdiction. Investment into the portfolio will not be accepted before the appropriate registration is completed in the relevant jurisdiction.

Additional information by Jurisdiction:

United Kingdom, Finland, Ireland, Denmark, Norway and Sweden: The information is approved, on behalf of Lazard Fund Managers (Ireland) Limited, by Lazard Asset Management Limited, 50 Stratton Street, London W1J 8LL. Incorporated in England and Wales, registered number 525667. Lazard Asset Management Limited is authorised and regulated by the Financial Conduct Authority.

Investment Policy

This sector-based equity fund invests along the value chain of the global infrastructure opportunity set. The investment universe encompasses companies that provide the facilities and services necessary to maintain and develop modern infrastructure, and also includes companies supplying infrastructure-related products and services. The objective is to maximize total return from capital appreciation and dividends over extended periods of time. It follows an unconstrained, non-benchmark oriented approach to identify attractively valued companies positioned to benefit from the infrastructure theme.

Investing involves risk including the risk of loss of capital. Past performance does not predict future returns. Neither simulated nor historical performance is a reliable indicator for current or future performance.

Performance overview - monthly & cumulative

since 01.01.2024

Performance overview - cumulative

since 01.04.2014

Until **14.12.2017**, the Fund had different characteristics and performance was achieved under circumstances that no longer apply. Repositioning as per 14.12.2017 (Old Fund name: CSIF 2 – CS (Lux) Infrastructure Equity Fund).

Potential Risks

The Fund's risk and reward profile does not reflect the risk inherent in future circumstances that differ from what the Fund has experienced in the recent past. This includes the following events which are rare but can have a large impact.

- **Liquidity risk:** Assets cannot necessarily be sold at limited cost in an adequately short timeframe. The Fund's investments may be prone to limited liquidity. The Fund will endeavor to mitigate this risk by various measures.
- **Counterparty risk:** Bankruptcy or insolvency of the Fund's derivative counterparties may lead to payment or delivery default.
- **Operational risk:** Deficient processes, technical failures or catastrophic events may cause losses.
- **Political and Legal risks:** Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks.
- **Sustainability risks:** Sustainability risks are environmental, social or governance events or conditions that can have a material negative effect on the return, depending on the relevant sector, industry and company exposure.

The product's investment objectives, risks, charges and expenses, as well as more complete information about the product, are provided in the prospectus (or relevant offering document), which should be read carefully before investing.

Investors may lose part or all of their invested amount.

The full offering documentation including complete information on risks may be obtained free of charge from a Credit Suisse client advisor, representative, or, where applicable, via Fundsearch (credit-suisse.com/fundsearch).

The investment promoted in this marketing material concerns the acquisition of units or shares in a fund and not of any underlying assets. The underlying assets are owned by the fund only.

² The risk indicator assumes you keep the Product for 7 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less. The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. Be aware of currency risk if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance commentary

The fund underperformed the broader equity market as measured by the MSCI World (NR) Index (source: Aladdin, gross of fees in USD terms). Among the top contributors to the fund's quarterly performance were the oil and gas storage and transportation stocks: Oneok, Targa, and Williams triggered by the rise in oil prices, as well as the waste recycling names Republic Services and Waste Management driven by ongoing solid guidance on fundamentals. By contrast and prompted by falling power prices, integrated utilities Enel, Engie, RWE, and SSE detracted most from the fund's performance. Furthermore, Grupo Aeroportuario del Pacifico was exposed to profit-taking due to the risk of possible tariff adjustments.

Market comments

Most equity markets showed a strong Q1 2024 performance, buoyed by hopes of a soft economic landing in the US, enthusiasm about artificial intelligence (AI), and anticipated rate cuts. The Swiss National Bank was the first major central bank to dial back tighter monetary policy at the end of March in view of renewed low inflation figures. Infrastructure stocks underperformed the broader equity market (source: Bloomberg, NMX Infrastructure Composite Index, MSCI World [NR] Index) during this period. Oil and gas storage and transportation infrastructure were the main beneficiaries from the resilient oil demand and lower supply from OPEC+ countries, which kept the market undersupplied. By contrast, interest-sensitive utilities and telecom infrastructure suffered the most from the slight rise in long-term interest rates, led by renewables, towers, and water utilities. At the same time, electricity producers also felt the effects of falling electricity prices, while grid operators were able to buck this trend. Waste recycling performed best, and this can be attributed to its strong pricing power in our view. Transportation infrastructure also ended the quarter in the black, with airports and railroads in particular benefiting from rising freight and traffic volumes.

Comments on transactions

During the first quarter of 2024 we increased the relative weighting of the oil and gas storage and transportation infrastructure, railroads, toll roads, and data centers at the expense of renewables, electric utilities, and tower REITs.

ESG Approach

This fund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector). It applies the CSAM Sustainable Investing Policy (www.credit-suisse.com/esg), including norms-based, values-based and business conduct exclusions, to combine ESG factors with traditional financial analysis to make an ESG adjusted risk-return assessment, which serves as the basis for the portfolio construction. For further information about the ESG investment criteria and the sustainability-related aspects of the fund please consider the legal and regulatory documents of the fund (such as, e.g., the prospectus) and visit www.credit-suisse.com/esg. In addition to sustainability-related aspects, the decision to invest in the fund should take into account all objectives and characteristics of the fund as described in its prospectus, or in the information which is to be disclosed to investors in accordance with applicable regulations.

Certain data points are provided for mere transparency purposes and are not linked to a specific ESG investment process, nor to CSAM ESG methodology. For details about the fund's ESG decision-making process, please refer to the fund's prospectus.

ESG Characteristics

ESG Benchmark	Exclusion Criteria	ESG Integration	Active Ownership ⁵	Sustainable Investment Objective

ESG Overview

According to MSCI methodology. Fund performance against benchmark: MSCI World (NR).

	Portfolio	Benchmark
ESG Rating	AA	A
ESG Quality score	7.46	6.88
Environmental score	6.80	6.14
Social score	5.94	5.01
Governance score	6.08	5.78
Coverage for Rating/Scoring	98.61%	99.90%
Weighted Average Carbon Intensity (Tons of CO ₂ e/\$M sales)	380.91	95.94
Coverage for Carbon Intensity	98.31%	99.82%

Note: The total carbon intensity figure shown in this section may be higher than the total in the breakdown graph. This is because the figure is normalized, and actual weights are inflated because of limited data coverage. For further information on the MSCI methodology for the above listed ESG data points, please refer to the glossary.

⁴ If the currency of a financial product and/or its costs is different from your reference currency, the return and cost may increase or decrease as a result of currency fluctuations.

⁵ Active Ownership is part of the fund's strategy to act in the best interests of its investors and to preserve and optimize the long-term value of their investments. To promote best practices and to ensure that the investee companies are sustainable and successful in the long term, Active Ownership is designed to influence the investee companies on two levels: first, through proxy voting, and second, through engagement. In the case of investments in other funds (Target Funds), the fund has no or only limited ability to exercise Active Ownership on the Target Fund, resp. on the Target Funds' investee companies.

Top 10 positions - ESG Characteristics

In terms of the fund's total economic exposure. Certain data points disclosed in this table are provided for mere transparency purposes and are not linked to a specific ESG investment process, nor to CSAM ESG methodology. For details about the fund's ESG decision-making process, please refer to the fund's prospectus. Source: MSCI

Instrument Name ⁶	Weight in portfolio	GICS sector	MSCI ESG Rating	Controversy flag	Carbon intensity (tCO2e / \$M sales)
ONEOK INC	4.85%	Energy	AAA	Yellow	294.80
EQUINIX REIT INC	4.45%	Real Estate	AA	Green	336.70
KEYERA CORP	4.34%	Energy	AA	Green	332.60
UNION PACIFIC CORP	4.20%	Industrials	AA	Orange	382.10
VINCI SA	4.18%	Industrials	A	Yellow	33.30
CSX CORP	4.13%	Industrials	A	Yellow	286.80
AENA SME SA	4.13%	Industrials	A	Green	41.40
DIGITAL REALTY TRUST REIT INC	3.97%	Real Estate	AA	Green	711.90
E.ON N	3.92%	Utilities	AA	Yellow	50.70
WILLIAMS INC	3.58%	Energy	A	Yellow	1'221.90

Note: All ESG data points in the table refer to an underlying issuer as applicable (e.g., an equity issuer in case of a convertible bond). For further information on the methodology for the above listed ESG data points, please refer to the glossary.

Asset breakdown by ESG rating

In % of total economic exposure. Fund performance against benchmark: MSCI World (NR). Source: MSCI ESG rating

	Portfolio	Benchmark	Portfolio Benchmark
AAA	13.94	14.26	
AA	41.76	32.04	
A	38.91	27.84	
BBB	2.49	19.22	
BB	-	4.21	
B	1.52	2.30	
CCC	-	0.03	
Not ratable	1.11	0.00	
No data coverage	0.28	0.10	

Note: For further information on MSCI's ESG rating methodology and the difference between categories "not ratable" and "no data coverage", please refer to the glossary.

Asset breakdown by ESG controversy flag

In % of fund total economic exposure to investee companies. Fund performance against benchmark: MSCI World (NR). Source: MSCI

	Portfolio	Benchmark	Portfolio Benchmark
Green	53.55	33.80	
Yellow	35.68	33.98	
Orange	9.38	32.01	
Red	-	0.12	
No data coverage	0.28	0.09	

Note: Exposure to investee companies represents 98.89% of portfolio weight for this share class. MSCI only provides data on ESG controversies for corporate issuers. Any remaining instruments (e.g., government bonds) are excluded from this breakdown. For further information on MSCI's ESG controversy flag methodology, please refer to the glossary.

Carbon emission intensity contribution by GICS sector

Tons of CO2 equivalent emission intensity (GHG scopes 1 & 2) per \$m sales, by GICS sector split. Fund performance against benchmark: MSCI World (NR). Source: MSCI

	Portfolio	Benchmark	Portfolio Benchmark
Energy	130.34	14.95	
Industrials	122.69	9.12	
Utilities	73.41	32.53	
Real Estate	45.05	1.87	
Others	3.07	37.29	
Total	374.55	95.77	

Note: Security weighted data coverage is 98.31% for the portfolio. The total shown in this section may be lower than the one in the 'ESG Overview' section. This is because the figures in this breakdown are not normalized and use the actual weights. For further information on the Carbon emission intensity, please refer to the glossary.

⁶ The individual entities and/or instruments mentioned on this page are meant for illustration purposes only and are not intended as a solicitation or an offer to buy or sell any interest or any investment.

Glossary

Accumulating	Indicates a regular reinvestment of the dividends received in the portfolio itself
Annualized Risk	Annualized risk is a statistic, which is used to measure the risk of a fund by describing the range of returns, which were achieved in the observation period are most likely to be achieved. Greater volatility implies greater risk.
Beta	A measure of the volatility, or systematic risk, of a single security or fund in comparison to the market as a whole.
Carbon emission intensity	The weighted average emissions intensity, which is provided by MSCI ESG, divides the Scopes 1 & 2 emissions in tons of CO ₂ -equivalent by million \$ sales. Intensities are broken down by GICS sector and are security weighted.
ESG aware	This product undertakes investments that explicitly assess and integrate the sustainability characteristics of companies in the investment process.
ESG benchmark	A ticked 'ESG benchmark' box reflects that the ESG section in this document compares the ESG performance of the portfolio with an ESG index. In case the box is not ticked, this means that the ESG section in this document compares the ESG performance of the portfolio with a non-ESG index or that no comparison is performed due to a lack of a recognized benchmark. The investor shall read the legal documentation of the Fund to understand how the benchmark is used. In any case, a ticked 'ESG benchmark' box does not mean that the ESG benchmark is used to attain the ESG strategy of the fund.
ESG Controversy Flag	ESG Controversy Flag is designed to provide timely and consistent assessments of ESG controversies involving publicly traded companies and fixed income issuers. A controversy case is typically a one-off event such as an environmental oil spill, an accident, or allegations such as safety issues in a production facility. Controversy flags can be red, orange, yellow or green. Red indicates that a company is involved in one or more very severe controversies. Orange indicates that a company has been involved in one or more recent severe structural controversies that are ongoing. Yellow indicates that the company is involved in severe-to-moderate level controversies. Green indicates that the company is not involved in any major controversies. For further information on the methodology, please refer to www.msci.com/our-solutions/esg-investing/ .
ESG Quality score	The ESG Quality score, based on MSCI ESG scores of underlyings, is measured on a scale from 0 (very poor) to 10 (very good). It does not correspond directly to the underlying Environment, Social and Governance Pillar scores. The Pillar scores are derived on an absolute basis, while the portfolio ESG Quality score is adjusted by MSCI to reflect the industry-specific level of ESG risk exposure. As Pillar scores are absolute, and the portfolio ESG Quality score is relative, the first cannot be averaged to derive the latter. The coverage rate is security weighted.
Issuer ESG Rating	Company and Government ESG Ratings, which are provided by MSCI ESG, are measured on a scale from AAA (highest rating) to CCC (lowest rating). Company ESG Ratings are based on the issuer's exposure to industry specific ESG risks and its ability to mitigate those risks relative to peers. Company ESG Ratings are calculated on an industry relative basis while the underlying individual E, S and G Ratings are absolute. Hence, the ESG Rating cannot be seen as an average of the individual E, S and G Ratings. Government ESG Ratings identify a country's exposure to and management of ESG risk factors and explain how these factors might impact the long-term sustainability of its economy. They are derived from 0-10 scores on underlying factors in the E, S and G pillars. For further information on the MSCI methodology, please refer to www.msci.com/our-solutions/esg-investing/ .
Ex post	Refers to metrics based on historical data
GICS	Global Industry Classification Standard
Greenhouse gas (GHG) emissions	Scope 1 emissions are generated by a company directly from owned or controlled sources such as the burning of fuels (stationary or mobile), industrial processes, etc. Scope 2 emissions are indirect emissions, primarily those associated with the electricity consumed by a company. Scope 3 emissions are all other indirect emissions associated with a company's operations, such as business travel, waste generated, and products both upstream (in the supply chain) and downstream (use of the products and end of life). Scope 3 emissions typically account for the largest proportion of a company's emissions.
Information ratio	This statistic measures how much a fund's out-performance may be attributed to manager skill as oppose to market movement. A high Information Ratio infers more manager skill than a low value would suggest.
Maximum drawdown	Represents the worst possible result (in percentage terms) that occurred during the period being analyzed.
MTD	Month-to-date
MSCI	MSCI refers to the external data provider MSCI ESG Research LLC and/or its affiliates.
MSCI ESG Methodology	For further information on the methodology applied to assess the ESG characteristics of the investments, please refer to www.msci.com/our-solutions/esg-investing/
NAV	Net Asset Value
Not ratable / No data coverage	Where MSCI considers an asset type for ESG analysis but data on an economic exposure is unavailable due to a lack of data from the data vendor, the investment falls under the category "No data coverage". Where MSCI considers an asset type out of scope for ESG analysis (e.g. Cash, Currency), the economic exposure falls under the category "Not ratable". For further information regarding excluded asset types, please refer to www.msci.com/our-solutions/esg-investing/ .
Ongoing Charges	The calculation of the ongoing charge is based on the Committee of European Securities Regulators/10-674 Directive. For a maximum of 12 months from fund fiscal year end and since inception, the ongoing charges figure is based on estimated expenses. After that, the ongoing charges correspond to the TER of the last annual report. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling shares/units in another collective investment undertaking.
Portfolio/Benchmark ESG Rating	Discrepancies may exist between the portfolio-level ESG Rating calculated by CSAM applying the MSCI methodology (provided in this factsheet) and the ESG Ratings displayed by other providers (e.g., MSCI ESG fund ratings). There are three main reasons for these potential deviations: (1) CSAM uses updated month-end holdings data as basis for its calculation, (2) CSAM consistently uses underlying issuer data where applicable (e.g., equity issuer in case of a convertible bond), and (3) look-through approach for target funds applied by CSAM. The coverage rate is security weighted. For further information on the MSCI methodology, please refer to www.msci.com/oursolutions/esg-investing/ .
QTD	Quarter-to-date
Sustainable Finance Disclosure Regulation (SFDR)	Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector
Sustainable investment objective	Where the 'sustainable investment objective' box is ticked, this means that the product implements CSAM investment strategies that allocate capital into companies that offer solutions to society's challenges and meet a sustainable investment objective. The sustainable investment objective is achieved through a dedicated investment process focusing on investments in themes and sectors whose economic activities address specific ESG challenges. An unticked box reflects that the product does not aim to meet a sustainable investment objective.
TNA	Total Net Assets
Tracking error	Measure of the deviation of the return of a fund compared to the return of a benchmark over a fixed period of time.
YTD	Year-to-date

Warning statements

Asset breakdown	Indicative allocation may change over time. All holdings are shown strictly for information purposes only and do not constitute investment recommendations of Credit Suisse. Please note that this does not constitute an offer or a solicitation to buy or sell any interest or any investment.
Swinging Single Pricing	For more details, please refer to the relevant chapter "Net Asset Value" of the fund's prospectus
Performance start date	Performance calculation and presentation start with the first full month of an invested strategy. This can lead to a difference in launch and performance start dates.
PRIIP SRI	The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets.

ESG Notes

The figures contained in this section are not audited. Where ESG related information, statements and scorings are made in this document, CS may have, partially or entirely, relied on publicly available information, internally developed data and/or information obtained from other third-party sources which CS believes to be reliable. CS' ability to verify such ESG objectives may be limited by the reliability of the data available in respect of the underlying assets and the status of the regulations in relation to tracking and providing such data. CS has not independently verified any information obtained from these public and third-party sources and cannot make any representations or warranties as to its accuracy, completeness or reliability. It is possible that the data from ESG data providers may be incorrect, unavailable, or not fully updated. This is especially true where CS has limited access to data from external parties regarding the underlying elements of an investment, for example due to a lack of look-through data. Such data gaps could result in an incorrect assessment of a sustainability practice and/or related sustainability risks and opportunities. Investors shall not use the ESG data provided in this document for the sake of meeting their own regulatory disclosure or reporting requirements. CS cannot make any guarantee about the content or completeness of such ESG disclosures, which remain subject to change and cannot be relied upon. In particular, CS shall not be liable for any errors or omissions in connection with any ESG data herein, or for any direct, indirect, special, punitive, consequential or any other damages (including lost profits). In the absence of a standardized, industry-wide ESG classification system, CS has developed its own ESG framework (the "CS Sustainable Investment Framework"). Therefore, investors should note that the ESG classification of the fund reflects CS' opinion and is based on the CS Sustainable Investment Framework which classification may vary from the classification made by third parties. The fact that a fund follows the CS Sustainable Investment Framework does not necessarily mean that it meets the investors overall investment objectives, nor their sustainability preferences. Given that sustainability regulations and guidelines are still developing, CS may need to review certain ESG classifications/descriptions as industry practices change and as more regulatory guidance becomes available. The ESG-performance of a portfolio might also differ from its financial performance and CS cannot make any representation as to the correlation between financial and ESG performance. Sustainability-related practices also differ by region, industry and ESG issue and are continually evolving. Consequently, sustainability-related practices may change over time. Similarly, new local sustainability requirements may result in additional compliance costs, disclosure obligations or other restrictions on the fund. CS' view on the appropriate classification may also evolve over time, including in response to regulatory guidance or changes in industry approach to classification.
