Overview of the Thai Stock Market April 1, 2024 - September 30, 2024

April 2024 to September 2024: The Thai stock market continued to move down in April, with increased volatility in mid-month when Israel and Iran exchanged missile attacks. While global stock markets initially fell sharply, no expansion of the exchange of fire brought the market back up. Export-oriented food companies and beverage companies saw their stock prices rise as the Thai baht weakened and as hot weather boosted sales. In the first half of May, the market rebounded, supported by 1Q24 earnings beats by some companies. Stocks in the ICT and Food & Beverage sectors performed particularly well. However, the market again fell in the latter half of the month, fueled by concerns over political instability and negative factors affecting specific industries. Hospital and hotel stocks declined due to the low season in 2Q24. In June, the market plunged to its lowest level in three and a half years, due to ongoing uncertainty surrounding several high-profile political issues that led to net foreign selling. Negative sentiment surrounding some individual stocks also weighed on the market. In the final week of the month, the market rebounded after the government announced that it is preparing measures to stimulate the capital market. In July, the market fluctuated within a range of 1285-1355, rising in the first half of the month following the implementation of the uptick rule, with support by rises in DELTA and power generation companies. Positive sentiment towards DELTA was bolstered by the decline in US Treasury yields, while power generation stocks were supported by news of the Energy Regulatory Commission's consideration of a rise in electricity tariffs from September - December. In the second half of the month, the market retreated. Banking stocks declined after several banks reported 2Q24 earnings misses. Most banks lowered loan growth targets and raised expected NPL ratios. EA plummeted on negative sentiment related to the SEC's charges against its executives for alleged fraud and concerns about the company's liquidity. The market declined in the first half of August, as the domestic political landscape was clouded by uncertainty surrounding the Constitutional Court's ruling on the eligibility of Mr. Srettha Thavisin to serve as Prime Minister. However, the market rallied significantly in the latter half of the month following a resolution of the political clouds. The Constitutional Court ruled by a majority vote to terminate Mr. Srettha as Prime Minister and dissolve the cabinet, and Parliament immediately elected Ms. Paetongtarn Shinawatra, leader of the Pheu Thai Party, as the 31st Prime Minister to succeed Mr. Srettha. She started to draw up a new cabinet immediately. In September, the market surged, driven by the clarity provided by the new cabinet and the government's policy statement, as well as the clarity regarding the launch of the Vayupak Fund. Global stock markets, including the Thai stock market, were also buoyed by the Fed's decision to cut interest rates. In the final week, both Thai and regional stock markets received additional support from the PBOC's multiple interest rate cuts and the Chinese government's stimulus measures. The SET closed September at 1448.83.

SET return between April to September 2024 was +5.14%. The largest positive returns were in ETRON at +39.43%, ICT at +27.18% and PF&REIT at +8.24%. The largest negative returns were in AUTO at -19.63%, TOURISM at -10.60% and PETRO at -9.49%. Foreign investors were net sellers of 26.2 billion baht.
