To Unitholders

Overview of the Thai Stock Market December 1, 2023 to November 30, 2024

December 2023 to November 2024: In the first half of December, the Thai stock market fell to the year's low at ~1350, pressured by selling in large-caps, particularly oil stocks, which declined in tandem with crude oil prices. However, the market bounced back in the second half of December, supported by window-dressing and capital inflows from tax-saving mutual funds such as Thai ESG funds. In January, the market rose in the first week then fell the rest of the month, largely on domestic factors, including concerns about debt defaults, lower-than expected 2023 economic growth forecasts for Thailand and increasing challenges to the 10,000 Baht digital wallet. In February, the market moved in a range of 1355-1405, reacting to 4Q23 earnings announcements. Share prices of companies reporting earnings beats shot up while those reporting earnings misses plunged. In March, the market continued to move narrowly sideways at 1365-1395, driven by individual stock or industry factors. Investors speculated in stocks hoped to benefit from China's economic recovery and this brought a rally in the rubber, petrochemical, and packaging sectors after it announced economic stimulus measures after the Two Sessions meetings. In April, the market continued to trend downward. The volatility intensified in the middle of the month when Israel and Iran exchanged missile attacks. Export-oriented food companies and beverage companies saw their stock prices rise as the Thai baht weakened, with the hotter than usual weather also boosting sales. In the first half of May, the market rebounded, supported by 1Q24 earnings beats by some companies. However, the market wended down in the latter half of the month, fueled by concerns over political instability and negative factors affecting specific industries. In June, the market declined to its lowest level in 3.5 years, primarily due to uncertainties surrounding several high-profile political issues. This led to significant net selling by foreign investors. Contributing to the move down was negative sentiment on individual stocks. In July, the market fluctuated within a range of 1285-1355 points. In the first half of the month, it moved up following implementation of the uptick rule, supported by a rise in DELTA and power generation company share prices. The market then fell in the latter half of the month. Banking stocks declined after several banks reported 2Q24 earnings misses and provided a negative outlook for the remainder of the year. EA plummeted due to negative sentiment related to the SEC's charges against its executives for alleged fraud. The market declined in the first half of August, with the atmosphere gloomy due to clouds generated by domestic political issues. In the second half of the month, the market rebounded after the Constitutional Court gave a ruling that ended Mr. Srettha's term as Prime Minister, with his cabinet also dissolved. Almost immediately, the Parliament voted to elect Ms. Paetongtarn Shinawatra, leader of the Pheu Thai Party, as the 31st Prime Minister and she began preparing to form a new Cabinet. In September, the market surged, primarily driven by the clarity provided by the new cabinet and the government's policy statement, as well as the clarity regarding the launch of the Vayupak Fund. In October, the market continued to rise, primarily driven by the influx of capital from the Vayupak Fund, which began purchasing shares on October 1st, and the decision of BoT' MPC to reduce the policy interest rate by 25bps to 2.25%. The surge in DELTA and INTUCH-ADVANC-GULF were additional key contributors. However, the market weakened in the final week due to high net sell by foreign investors. In November, the market zigzagged down, primarily pressured by the announcement of the 3Q24 earnings results of non-bank listed companies, which came in lower than expected. Additionally, foreign capital continues to flow out of the market. The SET closed November at 1,427.54

SET return between December 2023 to November 2024 was +3.43%. The largest positive returns were in ETRON +83.20%, ICT +32.44% and AGRI +13.12%, while largest negative returns were in AUTO at -27.70%, CONMAT at -26.94%, and CONS at -22.61%. The Foreign investors were net sellers of 137.7 billion Baht.

INDEPENDENT AUDITOR'S REPORT

To The Unitholders and Managing Company of United Thai Equity CG Fund

Opinion

I have audited the financial statements of United Thai Equity CG Fund (The Fund), which comprise the statement of financial position and the statement of detail of investments as at November 30, 2024, the statement of comprehensive income and statement of changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of United Thai Equity CG Fund as at November 30, 2024, its financial performance and its changes in net assets for the year then ended in accordance the Accounting Guidance for Mutual Funds and Provident Funds issued by the Association of Investment Management Companies and approved by the Securities and Exchange Commission of Thailand.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further describe in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Fund in accordance with Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

*****/2

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to management in order management to correct the misstatement.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance the Accounting Guidance for Mutual Funds and Provident Funds issued by the Association of Investment Management Companies and approved by the Securities and Exchange Commission of Thailand, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

*****/3

• Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

• Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

• Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

The engagement partner responsible for the audit resulting in this independent auditor's report is Ms.Thanyaphorn Tangthanopajai.

Notes to financial statements form an integral part of these statements.

1. NATURE OF UNITED THAI EQUITY CG FUND

UNITED THAI EQUITY CG FUND (UTHAICG) is an open-end of equity instruments fund, that focuses on investment in the equity instruments of the listed companies in the stock Exchange of Thailand (SET) and/or MAI or other secondary markets of SET. Natures of the fund is as follows:

Registered Date of the fund	: December 4, 2017
Authorized Capital of Project	: Baht 5,000 million consisted of 500 million units of Baht 10 each.
Date of Project	: Indefinite
Dividend Payout Policy	: No dividend payment

UNITED THAI EQUITY CG FUND is managed by UOB Asset Management (Thailand) Company Limited.

The Fund has a policy to invest in the equity instruments of listed companies on the Stock Exchange of Thailand and/or MAI Stock Exchange or other secondary market of the Stock Exchange of Thailand. The Fund will focus investing in companies with good corporate governance including companies certified as members of the Thai private sector's alliance against corruption (CAC). Good corporate governance may be considered from the CG scoring of the Thai Institute of Directors or other agencies involved on an average in an accounting year not less than 80% of the net asset value of the fund. For the remaining investment, the Fund may invest in debt instruments with non-investment grade credit rating or unrated securities and may invest in unlisted securities that meet the requirements of the Securities and Exchange Commission of Thailand (SEC).

The Fund may enter into derivatives to enhance efficient portfolio management including investment risk hedging such as SWAP and/or forward contract in reference with the instrument price, interest rate and/or future contract, etc. as required or approve by the SEC. This also includes securities lending transaction or reverse repo that meet the requirements of the SEC. Nevertheless, the Fund will not invest in instrument that has the characteristics of structured notes.

Thai Military Bank (Public) Company Limited is the Fund's trustee.

UOB Asset Management (Thailand) Company Limited is the Fund's registrar.

2. BASIS FOR PREPARATION OF FINANCIAL STATEMENTS

These financial statements are prepared in accordance with the Accounting Guidance for Mutual Funds and Provident funds issued by the Association of Investment Management Companies and approved by the Securities and Exchange Commission of Thailand. While for those matters not covered by the Accounting Guidance, the entity is to follow the financial reporting standards issued by TFAC that are effective in that financial reporting period.

The financial statements of the Fund have been prepared in Thai language and expressed in Thai Baht. Such financial statements have been prepared for domestic reporting purpose. For the convenience of the readers not conversant with the Thai language, an English version of financial statements has been translated from the Thai version of financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- 3.1 Recognition of revenues and expenses
 - 3.1.1 The fund recognizes revenues on an accrual basis as follows :-
 - Interest income is recognized on the accrual time with effective rate basis.

Interest income arising from amortization of premium or discount of debt instrument is calculated by the effective rate basis.

Gain or loss on sale of investments is recognized on trade date and the cost of investments is calculated by the weighted average cost basis.

Unrealized gain (loss) from valuation of investments is recognized as income or expense in the statement of income.

3.1.2 The fund recognizes other income and expenses on an accrual basis.

3.2 Valuation of investments

Initial recognition

At initial recognition, the Fund recognized investments as assets at fair value at the date on which the Fund has the right on investments.

Subsequently measurement

Investments in the local debt investment is stated at fair value by calculating from the return rate announced by Thai Bond Market Association (Thai BMA), respectively, as follows:

- (1) Executed price or yield.
- (2) Average quoted price or yield, or firm quoted price or yield from Market Maker.
- (3) Price or yield calculated from the model.

The fair value of bills of exchange, treasury bills, debentures and bonds which the maturity dates are less than 90 days, are calculated from the yield-rate quoted on The Thai Bonds Market Association for the securities that have 90 days maturity leftover or the yield-rate from the acquisition of securities that have a maturity within 90 days from the date of investment. The fair value of securities and other assets will be set up taking into consideration the best representation of the fair value of those securities and other assets.

3.3 Financial instruments

The Fund initially measures financial assets and financial liabilities at fair value. The transaction cost relating to acquisition of such financial asset and financial liability is immediately recognized in profit or loss.

Classification and measurement of financial assets and financial liabilities

Financial assets are classified as financial assets measured at fair value through profit and loss and measured subsequently of financial assets at fair value, with net change in fair value recognized in the statement of comprehensive income.

All financial liabilities are classified as financial liabilities measured subsequently at amortized cost.

3.4 Net assets value per unit

Net assets value per unit is computed by dividing net assets value by the number of fund units outstanding at the end of the year.

3.5 Related party transactions

Related parties of the Fund comprise enterprises and individuals who directly or indirectly own a voting interest of at least 10 percent in the Fund or individual management personnel who are responsible for the management of the Fund, determining its policies or making decisions as to how to achieve the Fund's objectives, together with their spouses and dependents.

In addition, related parties include enterprises and individuals that control or are controlled by the Fund or significantly influence or are significantly influenced by the Fund.

3.6 Equalization account

A portion of the proceeds from the issuance or redemption of fund units, equivalent to the amount of undistributed retained earnings on the date of transactions of the amounts of unit issued or redeemed, is recorded in "Equalization account".

3.7 Accounting judgements and estimates

Preparation of financial statements in conformity with the accounting guidance requires management to make judgements and estimates that affect the reported amounts of assets, liabilities, revenues, expenses and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

3.8 Income tax

According to the Revenue Code Additional Amendment Act (No. 52) announced in the Royal Gazette on May 22, 2019 effective August 20, 2019 onward, the Fund has to pay income tax for the assessed income under Section 40 (4) (kor) of the Revenue Code from the investment of mutual fund such as bond interest, saving interest, debenture interest, bill interest and difference between redeem price and bill selling price or debt instruments that the company or corporate partnership or other juristic entity is the issuer and first seller at the price below the redeem price, by paying at the income tax rate 15 percent of income before deducting any expenses.

4. INVESTMENTS

Increase (decrease) in net assets resulting from			
operations during the year	15,607,518.33	(53,658,848.10)	
Retained earnings (deficit) at the end of year	(145,467,420.94)	(161,074,939.27)	

10.DISCLOSURE OF FINANCIAL INSTRUMENTS

10.1 Accounting policies for financial instruments

The details of the significant accounting policies, method used, including a basis on the recognition of income and expense for financial assets and financial liabilities are disclosed in Note 3.3.

10.2 Financial risk management for financial instruments

The fund manages its exposure to financial risk on financial assets from investment by its investment policy and management and control system. The Fund may be used derivative instruments for hedging foreign currency risk on exchange rate.

10.3 Fair value of financial assets and liabilities

Fair value is the price that will be received from sale of asset or it's the price that will be paid for transfer of a liability to other persons, provided that it's a normal transaction between the buyer and the seller (market participant) at the measurement date. The Fund uses a quoted market price in an active market to measure the fair value of assets and liabilities that are required by related accounting guidance to measure at fair value, except in the absence of an active market for similar assets or liabilities, or a quoted market price cannot be obtained in an active market. The Fund estimates the fair value by using appropriate valuation techniques for each situation and try to use as much observable information as possible related to the asset or liability which is measured at fair value.

Financial instruments measured at fair value classified by the estimation method. The difference of the hierarchy of information level can be presented as follows:

- Level 1 Use of quoted market prices (no adjustment required) in an observable active market for such assets or liabilities
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly (such as market data) or indirectly (such as calculated from market prices)
- Level 3 Use of unobservable inputs for such assets or liabilities (information that cannot be observed)

As at November 30, 2024, the Fund had the assets that were measured at fair value using different levels of inputs as follows :-

	Million Baht						
	Level 1	Level 2	Level 3	Total			
Assets							
Common stocks	308.52	.	-	308.52			

As at November 30, 2023, the Fund had the assets that were measured at fair value using different levels of inputs as follows :-

	Million Baht						
	Level 1	Level 2	Level 3	Total			
Assets							
Common stocks	424.27	-3	-	424.27			

Various investments are derived from explicitly referenced market prices in an active market and classified as Level 1, consisting of liquid listed equity instruments and derivatives traded in officially established markets. The Fund will not adjust the quoted prices for these instruments.

Financial instruments traded in markets that are not considered to be liquid but have been valued at an explicit reference market price. Trading quotations by traders or alternative pricing sources backed by observable data are classified as Level 2. These financial instruments comprised of private equity instruments that are among the most attractive to investors and derivatives in the market directly traded.

Investments classified as Level 3 contain important information that cannot be observed due to infrequent trading. Equity instruments level 3 contain information on credit risk and expected damages for the equity instruments. The main data entered into the fund valuation model for this investment consists of the ratio of market price to net profit income and discounted cash flow.

10.4 Interest rate risk

The Fund's exposure to interest rate risk relates primarily to its investments in the debt instruments, which the change in the rate of return affects the prices of these debt instruments held by the Fund to move in the opposite direction. For example, when the market rate of return decreases, the price of bonds will be higher and the Fund will receive return in the form of capital gain. However, when the market rate of return increases, the price of bonds will be lower and the Fund will incur loss. Therefore, the longer the maturity of the instruments, the greater is the impact of changes in the rate of return.

As at November 30, 2024, the Fund had significant financial assets classified by types of interest rates as follows :-

	Baht					
	Floating rate	Fixed rate	No interest	Total		
Financial assets	23)					
Investment	-	-	308,524,611.00	308,524,611.00		
Cash at banks	7,896,253.83	-	-	7,896,253.83		

As at November 30, 2023, the Fund had significant financial assets classified by types of interest rates as follows :-

	Baht				
	Floating rate	Fixed rate	No interest	Total	
<u>Financial assets</u>					
Investment	-	-	424,270,977.00	424,270,977.00	
Cash at banks	18,384,351.07	-	-	18,384,351.07	

10.5 The risk from changes in the market price of equity instruments

The Fund is exposed to market risk because it has investments in equity instruments. The changes in the state of investment in the stock market affect the stock price. The factors that have an effect may be divided into the risk associated with the overall market (Market Risk) and the risk arising from specific factors (Specific Risk), which may result in changes in the value of investment assets and fluctuations of income or the value of financial assets.

The Fund cannot fully eliminate these risks. However, the approach to help reduce specific risk can be achieved by appropriately distributing the investment weights in each security and in each business and balancing good return and risk not to be over the risk of the market. For the market risk, the Fund is unable to eliminate or reduce such risk since it is the basic risk in this type of equity instruments.

10.6 Market risk

The Fund's market risk relates primarily to investments in the capital markets whose returns fluctuate in line with the economy, political situation, capital markets. These circumstances may have positive or negative effects on the performance of the companies issuing securities depending on how sensitive the business types of the issuers are linked to the volatility of the markets and result in the price of these securities to be higher or lower.

10.7 Exchange rate risk

The Fund has no financial assets or liabilities denominated in foreign currencies. Therefore, there is no exchange rate risk.

10.8 Credit risk

The Fund is exposed to the risk of non-performance of the obligations under the financial instruments by the contractual parties. As the Fund has accounts receivable from bank that is in the normal business of the fund, it does not anticipate material loss from such debt collection.

10.9 Liquidity risk

Liquidity risk is the risk that arises from the lack of marketability to turn the assets into cash and/or to secure sufficient capital quickly enough to prevent a loss or to use the cash to settle an obligation when due.

The maturity dates of financial instruments from the statement of financial position date as at November 30, 2024 are as follows :-

	Due at Maturity (Baht)					
-	Not specified	Due at call	Within 1 year	1 - 5 years	Over 5 years	Total
