Message from the Company

To Unitholders

Market Summary

Global equities experienced a strong run in the first 3 quarter of 2024, largely driven by the AI-related stocks and easing inflation fears. Tech stocks, particularly in the semiconductor area with significant earnings growth, were the main contributors to double-digit returns of major indices like the S&P 500 and MSCI AC World Index. Moreover, Fed adjusted policy rate aggressively with 0.50% rate cut to 5.00% in September 2024, as a result equity market was supported. Global stock met with high volatility again in late October as investors foresee US election result as uncertain. Finally, US stock rallied strongly after Trump won US presidency from the hope of stimulus and deregulation while non-US equities underperformed because investor fear of trade war, especially China and Vietnam.

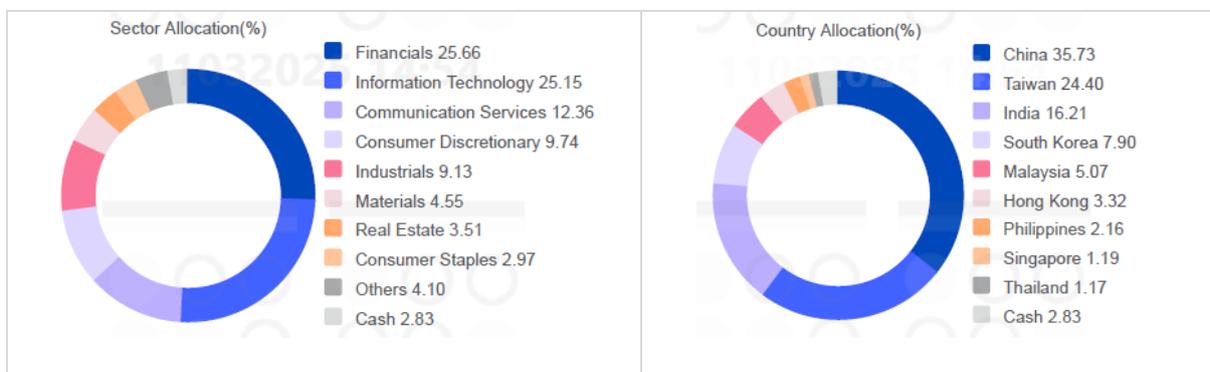

The Chinese stock market generated outstanding returns in the final quarter. This was the result of the large economic stimulus package announced in late September. It covers both monetary and fiscal policy in order for the Chinese economy to expand beyond 5%. However, investors expect additional measures and budgets to help the real estate sector and domestic consumption.

Fund's Investment Strategy

The fund mainly invests in United Asia Fund, managed by UOB Asset Management Singapore, which invests in the securities of corporations in, or corporations listed or traded on stock exchanges in, or corporations which derive a significant proportion of their revenue or profits from or have a significant proportion of their assets in, Asia (excluding Japan) with an objective of achieving long term capital growth.
