#### Message from the Company

#### To Unitholders

#### **Market Summary**

Global equities experienced a strong run in the first 3 quarter of 2024, largely driven by the Alrelated stocks and easing inflation fears. Tech stocks, particularly in the semiconductor area with significant earnings growth, were the main contributors to double-digit returns of major indices like the S&P 500 and MSCI AC World Index. Moreover, Fed adjusted policy rate aggressively with 0.50% rate cut to 5.00% in September 2024, as a result equity market was supported. Global stock met with high volatility again in late October as investors foresee US election result as uncertain. Finally, US stock rallied strongly after Trump won US presidency from the hope of stimulus and deregulation while non-US equities underperformed because investor fear of trade war, especially China and Vietnam.

The Chinese stock market generated outstanding returns in the final quarter. This was the result of the large economic stimulus package announced in late September. It covers both monetary and fiscal policy in order for the Chinese economy to expand beyond 5%. However, investors expect additional measures and budgets to help the real estate sector and domestic consumption. There are also concerns about trade measures through retaliatory tariffs on imported goods from the United States.

#### Fund's Investment Strategy

The fund would invest in the units of the Jupiter Global Fund – Jupiter Dynamic Bond (Class I) with an annual average of not less than 80% of its total net asset value. The master fund is registered in Luxembourg and managed by Jupiter Asset Management International S.A. The objective of the master fund is to achieve a high income with the prospect of capital growth from a portfolio of investments in global fixed interest securities. With an unconstrained strategy, the Fund can invest across the entire fixed income universe, such as high yield, investment grade, government and convertible bonds to find value and potentially the best risk-adjusted return.

#### Asset Allocation as of January 31, 2025 is as follows:

Sector	%NAV
Government bonds	49.5
Corporate bonds	44.8
Others	5.7

#### Portfolio Characteristics as of January 31, 2025 is as follows:

Effective Duration	8.75 Years
Average Credit rating	BBB+
Yield to Maturity	5.77%

As we have managed United Global Dynamic Bond Fund for a period of one year on January 31, 2025, we would like to inform the net value to unit holder, United Global Dynamic Bond Fund (UDB-A) has a net asset value 40,179,761.29 baht in asset value or its earning per unit is at 9.7969 baht. Remark:

- 1. Return per period
- 2. Return per year
- 3. If since inception < 1 Year Return per period, If Since inception ≥ 1 Year Return per year
- Benchmark: No benchmark. This is due to the Master Fund has employed an unconstrained strategy as its investment strategy whereby the fund manager may manage the investment with various strategies. Therefore, the Asset Management Company of the Master Fund deems that no benchmark is suitable for the investment of the Master Fund and its performance measurement.
- Performance measures used in this annual report comply with AIMC performance presentation standards.
- Past Performance/performance comparison relating to a capital market product is not a guarantee of future results.

#### INDEPENDENT AUDITOR'S REPORT

To The Unitholders and Managing Company of UNITED GLOBAL DYNAMIC BOND FUND

#### Opinion

I have audited the financial statements of United Global Dynamic Bond Fund (The Fund), which comprise the statement of financial position and the statement of detail of investments as at January 31, 2025, the statement of comprehensive income and statement of changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of United Global Dynamic Bond Fund as at January 31, 2025, its financial performance and its changes in net assets for the year then ended in accordance the Accounting Guidance for Mutual Funds and Provident Funds issued by the Association of Investment Management Companies and approved by the Securities and Exchange Commission of Thailand.

#### **Basis for Opinion**

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further describe in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Fund in accordance with The Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

\*\*\*\*/2

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to management in order management to correct the misstatement.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance the Accounting Guidance for Mutual Funds and Provident Funds issued by the Association of Investment Management Companies and approved by the Securities and Exchange Commission of Thailand, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

The engagement partner responsible for the audit resulting in this independent auditor's report is Ms.Thanyaphorn Tangthanopajai.

(Ms.Thanyaphorn Tangthanopajai)

UNITED GLOBAL DYNAMIC BOND FUND is managed by UOB Asset Management (Thailand) Company Limited.

The Fund is an investment unit redemption fund divided into 3 types of investment such as Auto redemption type (UDB-A), Normal redemption type (UDB-N) and since December 2020, the fund has added Super saving fund type (UDB-SSF). The investment policy is debt instruments by focusing the investment in the investment units of the foreign mutual funds (The Jupiter Global Fund - Jupiter Dynamic Bond (Class I) (Master Fund)) solely at the average of the fiscal year not less than 80 percent of the net asset value of the fund. The Fund may invest in hybrid instruments, Basel III instruments, derivatives that are underlying hybrid instruments and Basel III instruments in combined total not over 20 percent of the net asset value of the fund by investing in both local and/or overseas to conform with the required policy of the fund. The Fund may invest in derivatives to increase efficient portfolio management and the Fund may invest in derivatives for hedging. The Fund will not invest in or hold structured notes, but it may enter into securities lending or reverse repo including to invest in other securities or asset or to seek an or several interests and returns by other means as required by SEC or SEC office's announcement.

Kasikornbank Public Company Limited is the Fund's trustee.

UOB Asset Management (Thailand) Company Limited is the Fund's registrar.

### 2. BASIS FOR PREPARATION OF FINANCIAL STATEMENTS

These financial statements are prepared in accordance with the Accounting Guidance for Mutual Funds and Provident funds issued by the Association of Investment Management Companies and approved by the Securities and Exchange Commission of Thailand. While for those matters not covered by the Accounting Guidance, the entity is to follow the financial reporting standards issued by TFAC that are effective in that financial reporting period.

The financial statements of the Fund have been prepared in Thai language and expressed in Thai Baht. Such financial statements have been prepared for domestic reporting purpose. For the convenience of the readers not conversant with the Thai language, an English version of financial statements has been translated from the Thai version of financial statements.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- 3.1 Recognition of revenues and expenses
  - 3.1.1 The fund recognizes revenues on an accrual basis as follows:-

Interest income is recognized on the accrual time with effective rate basis.

Interest income arising from amortization of premium or discount of debt instrument is calculated by the effective rate basis.

Gain or loss on sale of investments is recognized on trade date and the cost of investments is calculated by the weighted average cost basis.

Unrealized gain (loss) from valuation of investments is recognized as income or expense in the statement of comprehensive income.

3.1.2 The fund recognizes other income and expenses on an accrual basis.

### 3.2 Valuation of investments

Initial recognition

At initial recognition, the Fund recognized investments as assets at fair value at the date on which the Fund has the right on investments.

## Subsequently measurement

Investments in the unit trusts of foreign funds and other foreign securities and assets are stated at fair value. The fair value of unit trusts in the foreign fund is based on the publication of NAVs prices by the fund. The fair value of other securities will be set up taking into consideration the best representation of the fair value of those securities.

Investments in the local debt investment is stated at fair value by calculating from the return rate announced by Thai Bond Market Association (Thai BMA), respectively, as follows:

()

- Executed price or yield.
- (2) Average quoted price or yield, or firm quoted price or yield from Market Maker.
- (3) Price or yield calculated from the model.

The fair value of bills of exchange, treasury bills, debentures and bonds which the maturity dates are less than 90 days, are calculated from the yield-rate quoted on The Thai Bonds Market Association for the securities that have 90 days maturity leftover or the yield-rate from the acquisition of securities that have a maturity within 90 days from the date of investment.

### 3.3 Derivatives

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument in hedge accounting, and if so, the nature of the item being hedged.

## 3.4 Foreign currency conversions

Accounts in foreign currencies are converted into baht by using exchange rate on the transaction date. Asset and liability in foreign currencies at the end of the period are converted into baht using the exchange rate of that day and the derivative transaction as at the transaction date is converted into baht by the contract rate.

At the end of the period, the unrealized gain or (loss) on outstanding derivative contracts is calculated by adjusting the outstanding derivative contracts from the contract rate to market rate with same maturity which are included within receivables or payables from derivative contracts in the statement of financial position.

Gain or loss on foreign currency conversions is recognized as income or expense in the statement of comprehensive income.

#### 3.5 Financial instruments

The Fund initially measures financial assets and financial liabilities at fair value. The transaction cost relating to acquisition of such financial asset and financial liability is immediately recognized in profit or loss.

Classification and measurement of financial assets and financial liabilities

Financial assets are classified as financial assets measured at fair value through profit and loss and measured subsequently of financial assets at fair value, with net change in fair value recognized in the statement of comprehensive income.

All financial liabilities are classified as financial liabilities measured subsequently at amortized cost.

## 3.6 Net assets value per unit

Net assets value per unit is computed by dividing net assets value by the number of fund units outstanding at the end of the year.

## 3.7 Related party transactions

Related parties of the Fund comprise enterprises and individuals who directly or indirectly own a voting interest of at least 10 percent in the Fund or individual management personnel who are responsible for the management of the Fund, determining its policies or making decisions as to how to achieve the Fund's objectives, together with their spouses and dependents.

In addition, related parties include enterprises and individuals that control or are controlled by the Fund or significantly influence or are significantly influenced by the Fund.

### 3.8 Equalization account

A portion of the proceeds from the issuance or redemption of fund units, equivalent to the amount of undistributed retained earnings on the date of transactions of the amounts of unit issued or redeemed, is recorded in "Equalization account".

## 3.9 Accounting judgements and estimates

Preparation of financial statements in conformity with the accounting guidance requires management to make judgements and estimates that affect the reported amounts of assets, liabilities, revenues, expenses and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

### 3.10 Income tax

According to the Revenue Code Additional Amendment Act (No. 52) announced in the Royal Gazette on May 22, 2019 effective August 20, 2019 onward, the Fund has to pay income tax for the assessed income under Section 40 (4) (kor) of the Revenue Code from the investment of mutual fund such as bond interest, saving interest, debenture interest, bill interest and difference between redeem price and bill selling price or debt instruments that the company or corporate partnership or other juristic entity is the issuer and first seller at the price below the redeem price, by paying at the income tax rate 15 percent of income before deducting any expenses.

_	Baht	
_	2025	2024
Reversed transaction of unrealized gain (loss) on foreign		
currency exchange rate at the beginning of the year	(15,782,370.37)	(493,996.12)
Unrealized gain (loss) on foreign currency exchange rate		
at the end of the year	(12,132,123.56)	15,782,370.37
Unrealized gain (loss) on foreign currency exchange rate	(27,914,493.93)	15,288,374.25

## 11. RETAINED EARNINGS

Retained earnings for the year ended January 31, 2025 and 2024 consisted of :-

	Baht	
	2025	2024
Retained earnings at the beginning of the year		
(Accumulated since February 27, 2018)		
Net income from investment	(62,104,269.42)	(59,596,438.74)
Net realized gain (loss) on investments	204,235,544.92	229,891,005.19
Net unrealized gain (loss) on investments	7,107,137.24	(21,028,442.93)
Total retained earnings at beginning of year	149,238,412.74	149,266,123.52
Increase (decrease) in net assets resulting from		
operations during the year	(11,180,933.57)	(27,710.78)
Retained earnings at the end of the year	138,057,479.17	149,238,412.74

### 12. DISCLOSURE OF FINANCIAL INSTRUMENTS

## 12.1 Accounting policies for financial instruments

The details of the significant accounting policies, method used, including a basis on the recognition of income and expense for financial assets and financial liabilities are disclosed in Note 3.

## 12.2 Financial risk management for financial instruments

The fund manages its exposure to financial risk on financial assets from investment by its investment policy and management and control system. The Fund uses derivative instruments for hedging foreign currency risk on exchange rate.

#### 12.3 Fair value

Fair value is the price that will be received from sale of asset or it's the price that will be paid for transfer of a liability to other persons, provided that it's a normal transaction between the buyer and the seller (market participant) at the measurement date. The Fund uses a quoted market price in an active market to measure the fair value of assets and liabilities that are required by related accounting guidance to measure at fair value, except in the absence of an active market for similar assets or liabilities, or a quoted market price cannot be obtained in an active market. The Fund estimates the fair value by using appropriate valuation techniques for each situation and try to use as much observable information as possible related to the asset or liability which is measured at fair value.

Financial instruments measured at fair value classified by the estimation method. The difference of the hierarchy of information level can be presented as follows:

- Level 1 Use of quoted market prices (no adjustment required) in an observable active market for such assets or liabilities
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly (such as market data) or indirectly (such as calculated from market prices)
- Level 3 Use of unobservable inputs for such assets or liabilities (information that cannot be observed)

As at January 31, 2025, the Fund had the assets that were measured at fair value using different levels of inputs as follows:-

	Million Baht			
	Level 1	Level 2	Level 3	Total
<u>Assets</u>				
Investment units	•	263.58	2	263.58
Derivatives	Ē	38.79	=	38.79
<u>Liabilities</u>				
Derivatives	15 N <del>a</del>	286.82	-	286.82

As at January 31, 2024, the Fund had the assets that were measured at fair value using different levels of inputs as follows:-

	Million Baht				
	Level 1	Level 2	Level 3	Total	
Assets					
Investment units	₩.:	225.03	) <u>E</u>	225.03	
Liabilities					
Derivatives	-	215.09	:-	215.09	

Various investments are derived from explicitly referenced market prices in an active market and classified as Level 1, consisting of liquid listed equity instruments and derivatives traded in officially established markets. The Fund will not adjust the quoted prices for these instruments.

Financial instruments traded in markets that are not considered to be liquid but have been valued at an explicit reference market price. Trading quotations by traders or alternative pricing sources backed by observable data are classified as Level 2. These financial instruments comprised of private equity instruments that are among the most attractive to investors and derivatives in the market directly traded.

Investments classified as Level 3 contain important information that cannot be observed due to infrequent trading. Equity instruments level 3 contain information on credit risk and expected damages for the equity instruments. The main data entered into the fund valuation model for this investment consists of the ratio of market price to net profit income and discounted cash flow.

### 12.4 Interest rate risk

The Fund's exposure to interest rate risk relates primarily to its investments in the debt instruments, which the change in the rate of return affects the prices of these debt instruments held by the Fund to move in the opposite direction. For example, when the market rate of return decreases, the price of bonds will be higher and the Fund will receive return in the form of capital gain. However, when the market rate of return increases, the price of bonds will be lower and the Fund will incur loss. Therefore, the longer the maturity of the instruments, the greater is the impact of changes in the rate of return.

As at January 31, 2025, the Fund had significant financial assets classified by types of interest rates as follows:-

	Baht			
	Floating rate	Fixed rate	No interest	Total
Financial assets				
Investment		(Alee)	263,577,063.44	263,577,063.44
Cash at banks	3,591,382.68		-	3,591,382.68

As at January 31, 2024, the Fund had significant financial assets classified by types of interest rates as follows:-

D-L4

	Bant			
	Floating rate	Fixed rate	No interest	Total
Financial assets				
Investment	-	<u>=</u>	225,030,277.34	225,030,277.34
Cash at banks	4,840,034.84	<del></del>	-	4,840,034.84

#### 12.5 Market risk

The Fund's market risk relates primarily to investments in the debt instruments whose returns fluctuate in line with the economy, political situation, money markets. These circumstances may have positive or negative effects on the performance of the companies issuing securities depending on how sensitive the business types of the issuers are linked to the volatility of the markets and result in the price of these securities to be higher or lower.

## 12.6 Exchange rate risk

As at January 31, 2025 and 2024, the Fund had foreign currency accounts as follows :-

LIID

	EUR		
	2025	2024	
Investment (at fair value)	7,539,324.99	5,867,742.64	
Cash at banks	5,700.00	6,500.00	

The Fund entered into derivative contracts for hedging of exchange rates on investments in foreign currency (see Note 9).

## 12.7 Credit risk

The Fund is exposed to the risk of non-performance of the obligations under the financial instruments by the contractual parties. As the Fund has accounts receivable from bank that is in the normal business of the fund, it does not anticipate material loss from such debt collection.

## 12.8 Liquidity risk

Liquidity risk is the risk that arises from the lack of marketability to turn the assets into cash and/or to secure sufficient capital quickly enough to prevent a loss or to use the cash to settle an obligation when due.

The maturity dates of financial instruments from the statement of financial position date as at January 31, 2025 are as follows:-

Due of Moturity (Bobt)

	Due at Maturity (Baht)					
	Not specified	Due at call	Within 1 year	1 - 5 years	Over 5 years	Total
Financial assets
