Message from the Company

To Unitholders

Overview of the Thai Stock Market February 1, 2025 to July 31, 2025

February 2025 to July 2025: In February the index continued to decline, pressured by external factors such as US import tariffs on Canada, Mexico, and China, and 4Q2024 earnings of listed companies that were below expectations. In March the index continued its decline for the 5th consecutive month amid growing concerns over intensifying trade wars. The US proceeded to impose import tariffs on trading partners and implemented retaliatory measures, particularly against China. However, there were some positive factors from China's Two Sessions meeting which announced economic stimulus measures and the launch of ThaiESGX measures. Towards the end of the month, an earthquake that reached Thailand created panic and the stock market closed trading in the afternoon session. In April the index continued to decline as the US and China engaging in fierce tariff retaliation, threatening to impose rates in triple digits, but both sides later showed signs of easing tensions, allowing the market to turn positive for the first time in 6 months. Domestically, the situation was further hit after WorldBank cut GDP forecast down to 1.6% - the lowest in the region and Moody's downgrading credit rating outlook from Stable to Negative Baa1, despite 1Q25 earnings results better than market expectations. In May the index continued to decline from capital outflows following MSCI's reduction of Thai stock weightings, the Fed maintaining interest rates at 4.25 - 4.50% and warning of stagflation conditions, profit-taking after the announcement of 1Q25 operating results, and low IPO volume for the ThaiESGX funds that launched this month. Despite some positive developments early in the month after the US and UK reached a trade agreement as the first countries to do so, while China continued to roll out economic stimulus measures, and 1Q25 operating results that came out well. In June the index faced continuous selling pressure from the 12-day retaliatory attacks between Israel and Iran, raising concerns about the closure of the Strait of Hormuz, which would impact approximately 20% of global oil supply. Domestic pressures included political issues with the Bhumjaithai Party announcing its withdrawal from the government coalition, conflicts between Thailand and Cambodia, and significant forced selling across multiple stocks. In July The index rose notably, driven by positive expectations on various issues such as: trade negotiations with the US nearing successful conclusion, easing tensions in US-China trade policy, upward revisions to global and Thai GDP forecasts, expectations that the BOT will cut the policy interest rate, and continuous fund flows coming into the market.

Summary of the Thai stock market between February 2025 and July 2025: The SET index declined 5.5%. The industrial sectors that declined the most were Media (-26.5%), Transportation (-23.0%), Finance (-23.0%), Property Development (-16.5%) and Commerce (-16.3%), while only sectors that were positive were Electronical Components (+14.0%), Construction Materials (+12.1%), Packaging (+6.0%) and Petrochemicals (+0.9%). Foreign investors were net sellers of 51.2 billion Baht, while institutional investors were net sellers of 11.22 billion Baht.
